CAPBA Business Meeting
Sue Kopen Katcef, President

Seminar: "AI in the Newsroom"
A.I. (Artificial Intelligence) is rapidly becoming a part of our world and a part of journalism. There is also great mistrust of A.I. among journalists, their readers, listeners and viewers. Lynn Walsh will focus on how journalists can use A.I. effectively and keep and build the trust we need with viewers, readers and listeners. You will see real world examples of how A.I. is effectively used in journalism and discuss how and when we should be transparent with news consumers in its use. Lynn, an Emmy Award-winning journalist, is the Assistant Director of Trusting News, where she works to help rebuild trust between journalists and the public.
