

The power of words  
Most people don't realize

The power of words  
The damage they cause

The power of words  
When they become angry

The power of words  
They speak without pause

The power of words  
They often cause pain

The power of words  
They often cause harm

The power of words  
A once strong relationship

The power of words  
Has now lost its charm

The power of words  
A lifetime of trust

The power of words  
But you'll always recall

The power of words  
The time they let you down

---

The power of words  
The time they let you fall

The power of words  
So always remember

The power of words  
That though it hurts when you're hit

The power of words  
Words hurt just as much

The power of words  
So never forget

The power of words
