

# LEITWOLF

Lead the Mission Forward.

## Turning Complex Challenges into Engineered Solutions.

Leitwolf has 25+ years of combined experience translating operational needs into technical requirements, then building thoughtful solutions to those hard problems. At Leitwolf, we build quality and accountability into everything we do to ensure every dime is accounted for and products are built effectively and efficiently. Leitwolf combines operational experience and technical expertise with industry-leading best practices to ensure you get the greatest possible return on your investment: a product that fully meets your needs.

### Core Competencies and Services

- **R&D Support** - Technology evaluation, software/hardware development, test planning and execution, data analysis, technical advisory and SME support services
- **Project Management** - Implementation of industry-recognized methodologies such as Agile or DevSecOps, milestone tracking, risk management, and on-time/on-budget delivery
- **System Engineering** - Adherence to standards such as IEEE 15288, requirements analysis, architecture development, integration, verification and validation (V&V)
- **Assessment & Analysis** - System characterization, performance evaluation, process documentation, and technical reporting

### Key Differentiators

- 25+ years of combined experience
- 100% on-time delivery across all projects
- Demonstrated ability to meet government program requirements
- 100% of Technical Staff Cleared at TS/SCI-level

### Business Facts

- Leitwolf is registered in SAM.gov (UEI: GX5AVT97N6N3, CAGE: 9FEX2) with the primary NAICS code of 541715.
- Leitwolf is registered with the SBA, is a certified SDVOSB, and is 100% Veteran Owned.

### Ease of Contracting

- Leitwolf prefers Firm Fixed Price (FFP) contracts and NET 30 terms. These are negotiable.
- All payment forms are accepted, but electronic payment methods, such as ACH or EFT, are preferred.

### Past Performance

- In 2024, Leitwolf had a 100% on-time delivery rate for all government projects
- Completed all project requirements—plus extras—in 18 weeks; outperformed a prior 18-month failed attempt with half the staff and no reuse of work
