

# "Need Help With Math?" Build A Boat

"Boat building is the near perfect vehicle for teaching applied math & science skills. It provides real genuine problems that can only be solved with math, there are no short cuts- Boat builders develop number sense, mental math, a thorough understanding of fractions and advanced geometry skills."

Building to Teach-  
Joe Youcha

AN AMERICAN SLOJD SCHOOL

"Believe me my young friend,  
there is nothing, absolutely nothing-  
half so much worth doing  
as messing about with boats."

Wind in the Willows

Age: 11 yr & up

**Building Tools  
for Life**

Shipwrights know that building a model is almost as involved as building a full size boat! New boat builders come get your feet wet, build some model boats, learn the nautical lingo, and then test your build all while assisting our resident boat builders on a full size build. Watch it all come to life over this 10 week workshop.

**Thursdays: March 10-May 28th**

\*NO CLASS APRIL 14 & 21, 2022 in observance of Easter

**1:00-3:30 Home Education Session**

**4:00-6:30 After School Session**

**Cost \$360**
