We are a non-profit organization comprised of gaming and lottery investigators and regulators throughout the United States and Canada. MGIR holds conferences in the spring and fall with a mission of sharing gaming intelligence and educating members. Attendees are asked to confidentially share information during the roundtable that impacts other members.

The Conference offers essential training designed to help members obtain more knowledge on subjects that we often do not have the resources to gain on our own, such as emerging technologies. MGIR is your organization and the Board relies on every member for suggestions and ideas that will help make it better. If you have any suggestions or ideas, please don't hesitate to discuss them with any board member.
