

N-HANCE 24-0-0 SRN

Guaranteed Analysis

Total Nitrogen (N)	24.00%
Urea Nitrogen.....	15%
Other Water Soluble Nitrogen.....	9%

9.99 pounds per gallon

Derived from: Methylene Diurea, Methylene Urea, and Urea

CAUTION: Keep Out of Reach of Children

WARNING: Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat, and/or skin. Avoid contact with eyes, skin and clothing. **IF SWALLOWED:** Induce vomiting by sticking finger down throat. Never give anything by mouth to an unconscious person. Get medical attention. **IF IN EYES:** Wash eyes with plenty of clear water for at least 15 minutes. Get medical attention.

General Information

35.5% of the total nitrogen in this product is controlled-release Nitrogen. Foliar fertilization is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required for your crops.

DIRECTIONS FOR USE

VEGETABLE & FRUIT: 1-3 gallons per acre per growing season. Split into a minimum of two applications, with 1/2 at early bloom and repeat at fruit set.

CUCUMBERS, SQUASH, MELONS, PUMPKINS: 1-3 gallons per acre at early bloom and repeat 4- 6 weeks later.

GREEN BEANS, PEAS LIMAS, SOYBEANS: 1-3 gallons per acre at early bloom and repeat at pod fill.

GRAINS, SEEDGRASS, RICE: 1-3 gallons per acre in the early season, 1-3 gallons per acre at flag leaf to flowering.

SWEET CORN: 1-3 gallons per acre in the early season and repeat at early tassel or silk. Can also use as "pop-up" starter in mixtures with other fertilizers.

POTATOES, CARROTS: 1-3 gallons per acre in midseason at tuber initiation or elongation. Can also use as "pop-up" starter in mixtures with other fertilizers.

APPLES, PEARS: 1-2 gallons per acre when at bud stage, repeat 30 days later. Post harvest apply 3-5 gallons per acre.

COTTON: Early season, 4-6 leaf stage, apply 1-2 quarts per acre. Mid season apply 2-4 gallons per acre. Peak blossom at boll set apply 2-4 gallons per acre. Refer to petiole results for input needs.

OTHER CROPS: 1-3 gallons per acre when adequate foliage is present and repeat at flowering for fruit fill.

GENERAL USE STATEMENT

N-HANCE contains slow-release nitrogen from urea polymers and can be used a lower rates (1-2 qts/ac) for improved uptake of fungicides, pesticides and micronutrients.

NET CONTENT AND WEIGHT: 2.5 gal (9.99 lbs./gl.)

CONDITIONS OF SALE: 1. Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one, other than an officer of Seller, is authorized to make any warranty, guarantee of direction concerning this product. 2.
