

Pueblo of Laguna Utility Authority – Public Service Announcement **Regarding Weather Impacts**

June 22, 2022

Due to the recent weather conditions that are producing significant rainfall, the POLUA is taking a proactive approach to inform the community that services may be impacted. We hope this will not happen; however, we feel it is essential to provide awareness to you.

Things to be aware of in the event of weather or emergency situations.

Water/Wastewater Operations

All water and wastewater services will remain in effect unless otherwise impacted by weather conditions.

Solid Waste Services

Customers who reside in remote areas may experience delays due to accessibility and safety.

Septic Tank Pumping Services

Customers who reside in remote areas or who do not have adequate access to septic tanks may experience delays due to accessibility and safety.

KHI Services

Customers with technical difficulties with external equipment may be delayed in service response due to rain and lightning. Customers may also contact the technical service helpline at 1-855-326-6017.

We appreciate your patience and understanding as the crews are doing their best to provide essential services to the Laguna Community. For further information, please visit our Website and Facebook.
