# Introduction

*JAS Transport since 2003, prides itself on supplying customers with superior equipments to suit each job type. We supply aggregates to New construction sites, Road building projects, New Oil & Gas refinery setups, and Environmental Cleanup Industries throughout Alberta, Saskatchewan and British Columbia. Our specialties are in hauling gravel, asphalt, contaminated soil along with providing services in remediation project and site preparing services.*

*JAS Transport is passionately dedicated to ensure the safety of our employees. Our employees are trained and certified in various fields on a continuous basis such as TDG, WHMIS, H<sub>2</sub>S, First Aid and CSTS. We hold certificate of recognition, partner in health and safety issued by Alberta Motor Transport Association. We conduct Weekly inspection to maintain equipment to enhance the quality of our operation.*
