

Most patients are looking for doctors they can trust, won't let them down and have answers to their health problems. The following questions will help Dr. Hammett know what you want, how you want to proceed and the main areas of health concerns you have. Please answer them as thoroughly as possible.

1. What is absolutely the most important health concern you have that Dr. Hammett must address?

---

---

---

2. What are your expectations from the care we offer, if we can help you?

---

---

---

3. What would make a profound difference in your health? [What could or would you do?]

---

---

---

4. Is there anything else Dr. Hammett needs to know that would help you?

---

---

---

Thank you for your input, Chiropractic is about helping the body heal itself better, more completely and preventing future disease and loss of function.

Thank You for choosing Hammitt Clinic of Chiropractic
