DESIGN CRITERIA :

THE DESIGN CRITERIA IS BASED ON SECTION 3307.6.5-2: THE UNDERSIDE OF SIDEWALK SHEDS SHALL BE LIGHTED AT ALL TIMES EITHER BY NATURAL OR ARTIFICIAL LIGHT. THE LEVEL OF ILLUMINATION SHALL BE EQUIVALENT OF THAT PRODUCED BY 200 WATT, 3400 LUMEN MINIMUM. STANDARD INCANDESCENT LAMPS ENCLOSED IN VANDAL-PROOF FIXTURES AND 8 FEET ABOVE THE FLOOR LEVEL.

THEREFORE, IN ORDER TO ILLUMINATE SIDEWALK SHEDS THAT DO NOT HAVE SIMILAR ATTRIBUTES, THE ABOVE EXAMPLE HAS TO BE SOLVED IN TERMS OF LIGHT INTENSITY OR FOOT-CANDLES.

THEREFORE, FOOT-CANDLES (Fc) = TOTAL LUMENS / AREA IN SQUARE FEET

TOTAL LUMENS = 3400

AREA = TO THE SURFACE AREA OF THE SPHERE AROUND THE LIGHT SOURCE

WITH A RADIUS OF $(20'/2) = 10'$ $4\pi \times 3.14 \times 10 \times 10 = 1256$ SQ. FT.
 FOOT-CANDLES = $3400 / 1256 = 2.7$ (MINIMUM LIGHT INTENSITY)

ADDITIONAL LIGHTING NOTE:

LEVEL OF ILLUMINATION SHALL BE THE EQUIVALENT OF THE PRODUCED BY TWO HUNDRED WATT, THIRTY FOUR HUNDRED LUMEN MINIMUM, STANDARD INCANDESCENT LAMPS ENCLOSED IN VANDAL-PROOF FIXTURES AND EIGHT ABOVE THE FLOOR LEVEL. FIXTURES TO BE LAMAR LIGHTING, MODEL#VPW232_E81_. FIXTURES TO BE 4-1/4"x48-1/4" AND SUPPLIED WITH F32T8 FLUORESCENT LAMPS OR LUMEN 4" LED FIXTURE, MODEL-LT8-520W-4C50, 500K/DAYLIGHT-20 WATT WITH CLEAR/ TRANSPARENT LENS.

ISSUED TO:

Bergdorf Goodman
754 5th Avenue
New York, NY 10019

Pursuant to Section 25-310 of the Administrative Code of the City of New York, the Landmarks Preservation Commission hereby approves certain alterations to the subject premises as proposed in your application completed on April 22, 2022.

The approved work consists of exterior work at the West 57th Street facade, including, at the 1st floor at the eastern bay, cleaning the masonry with a low pressure water rinse; repairing select locations of deteriorated marble and unused penetrations with a tinted cementitious repair mortar to match surrounding marble; and repointing select masonry joints, as described in a letter and written specifications, existing conditions photographs, and drawings submitted in packages prepared by Jon Wickers, dated April 18, 2022 and April 22, 2022, and submitted as components of the application.

In reviewing this proposal, the Commission notes that the Bergdorf Goodman Individual Landmark Designation Report describes 1 West 57th Street (aka 754 Fifth Avenue, 2 West 58th Street, 744 Fifth Avenue) as a Modern Classical style department store designed by Buchman & Kahn and built in 1927-28.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-11 for Repair, Restoration, Replacement, and Re-creation of Building Facades and Related Exterior Elements, including Section 2-11(c)(1) for cleaning or

LANDMARKS PRESERVATION COMMISSION

removal of paint and coatings; Section 2-11(c)(3) for pointing mortar joints; and Section 2-11(c)(4) for repair of natural or cast stone. Based on these findings, the Commission determined that the work is appropriate to the Individual Landmark building. The work, therefore, is approved.

SAMPLES REQUIRED: Pursuant to Title 63 of the Rules of the City of New York, Section 2-11(b)(5) and 2-11(b)(7) for Repair, Restoration, Replacement and Re-creation of Building Façades and Related Exterior Elements, this permit is being issued contingent upon the Commission's review and approval of installed sample mockups of repointing mortar and stone repair mortar at locations requiring repair, prior to the commencement of work. Review instructions in the subsection cited above before preparing samples. Submit clear, color digital photographs of all samples to lpollock@lpc.nyc.gov for review, or contact staff to schedule a site visit.

Please see Title 63 of the Rules of the City of New York for complete text of any cited Rule section(s): <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

The approved documents, and Department of Buildings filing drawings where applicable, are marked as approved by the Commission, with the date of the approval indicated. The work is limited to what is contained in the approved documents and referenced in the approval. Other work or amendments to this filing must be reviewed and approved separately. The applicant is hereby put on notice that performing or maintaining any work not explicitly authorized by this permit may make the applicant liable for criminal and/or civil penalties, including imprisonment and fines. This letter constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Leanne Pollock.
