Paint - DecoArt Americana Acrylics

Antique Gold	Lamp Black
Burnt Orange	Light Buttermilk
Burnt Umber	Payne's Grey
Celery Green	Plantation Pine
Country Red	Warm White
Deep Midnight Blue	
Neons Fiery Red	

Supplies

Surface - surface of your choice
approximately 7" x 11"

Brushes - bring your regular brushes &
be sure to include brushes for floating
and a dry brush or two

Regular painting supplies

Snowflake stencil or stamp

Sea Sponge or Stipple Brush

Prep Instructions

1. Sand and seal your surface, and lightly sand again.
2. Base entire surface with 2 coats of Lamp Black.
3. After the surface is dry, use a sea sponge or stipple brush and pounce Celery Green onto the black background. Cover the entire surface with the pounced Celery Green, leaving about 1/2" border of black around the edges. Keep the stippling light and airy but with good coverage. You may need to do it twice. (Refer to the photo of the prepped surface.)
4. When the surface is dry, transfer the basic pattern lines with white transfer paper. Do not transfer the pattern for the lettering.
5. Basecoat the snowman with Buttermilk. A couple of coats should do. Allow a little of the background to show through.
6. Basecoat the scarf with Burnt Orange.
7. Basecoat the two tree trunks on either side of the snowman with Burnt Umber. Do not base the trunk of the small tree in front of the snowman.
