

Helping business reduce IT costs, increase productivity and mitigate cyber risk

TakTik Technologies, LLC

TakTik Technologies LLC is a **Johns Creek, Georgia-based** (serving small & medium businesses) IT/Security Advisory firm focused on delivering **IT, Communication and Security solutions** that grow your business by enhancing productivity, lowering costs, and strengthening cybersecurity.

Mission & Vision:

- To help businesses/organizations grow and achieve their goals by researching and recommending **reliable IT/Security solutions and services** tailored to SMB and Midsize business needs—covering managed services, cloud, Phone/UCaaS, Internet, Network, SD-WAN services, AI adoption and cybersecurity.
- Empower businesses through cost-efficient, secure, and well-managed IT infrastructures.
- Offer expert **security assessments** and risk mitigation strategies.

Experience – Over 35 years of experiences finding and implementing IT and Security Solutions

Why Partner with TakTik? - Adding an Experienced Advisor to your team to validate strategic and technology selections as well as reducing your team's effort in vendor research and interactions is an easy and low risk decision.

Core Services & Solutions

1. Managed IT & Network Services

- Full management of IT infrastructure: network monitoring, maintenance, and support.
- **SD-WAN** implementations for optimized network performance and connectivity across locations.
- Backup and Recovery Solutions
- Network Refresh and Point Solutions.
- Internet and Bandwidth Services Solutions
- Microsoft license management Services.

Helping business reduce IT costs, increase productivity and mitigate cyber risk

2. Cloud & UCaaS Solutions

- Guidance on **public, private, and hybrid cloud adoption**, with cost-benefit analysis and tailored strategy.
- **UCaaS** deployments to enhance collaboration via unified voice, chat, and video platforms.
- Backup and Recovery Solutions and Cloud Implementation Services.

3. Cybersecurity & Security Assessments and Managed Security Services

- Proactive vs. reactive security approaches: emphasizing **penetration testing**, risk assessment, and continuous security posture improvement.
- Complimentary **security assessments** to identify vulnerabilities and recommend mitigation strategies and appropriate security technologies.
- Compliance Assessments and Attestations (PCI, HIPAA, SOC 2, HITRUST, CMMC, NIST and others)
- Privacy Assessment and Remediation Planning (GDPR, CCPA, PIPEDA, ETC)
- Security Management and Monitoring Services.

4. IT Expense Management

- Advisory services to optimize IT budgets and reduce operational overhead without sacrificing efficiency.

5. Emerging Tech Consulting

- **AI readiness reviews**—evaluating internal processes against AI requirements.
 - AI Technology and Service Provider evaluation.
 - Guidance on next-gen security tools such as **SASE** (Secure Access Service Edge) that unify VPN, SD-WAN, zero-trust, and cloud infrastructure.
 - Cloud Optimization and Expense Management Assistance
-

Helping business reduce IT costs, increase productivity and mitigate cyber risk

Thought Leadership & Insights
