

Helping business reduce IT costs, increase productivity and mitigate cyber risk

TakTik Technologies, LLC

TakTik Technologies LLC is a Johns Creek, Georgia-based (serving small & medium businesses) IT firm focused on delivering **managed IT and communication solutions** to enhance productivity, lower costs, and strengthen cybersecurity.

Mission & Vision:

- Provide **reliable IT solutions** tailored to SMB needs—covering managed services, cloud, UCaaS, SD-WAN, and cybersecurity.
- Empower businesses through cost-efficient, secure, and well-managed IT infrastructures.
- Offer expert **security assessments** and risk mitigation strategies.

Experience – Over 35 years of experiences finding and implementing IT and Security Solutions

✚ Core Services & Solutions

1. Managed IT & Network Services

- Full management of IT infrastructure: network monitoring, maintenance, and support.
- **SD-WAN** implementations for optimized network performance and connectivity across locations .

2. Cloud & UCaaS Solutions

- Guidance on **public, private, and hybrid cloud adoption**, with cost-benefit analysis and tailored strategy .
- **UCaaS** deployments to enhance collaboration via unified voice, chat, and video platforms .

Helping business reduce IT costs, increase productivity and mitigate cyber risk

3. Cybersecurity & Security Assessments and Managed Security Services

- Proactive vs. reactive security approaches: emphasizing **penetration testing**, risk assessment, and continuous security posture improvement .
- Complimentary **security assessments** to identify vulnerabilities and recommend mitigation strategies and appropriate security technologies.
- Security Management and Monitoring Services

4. IT Expense Management

- Advisory services to optimize IT budgets and reduce operational overhead without sacrificing efficiency.

5. Emerging Tech Consulting

- **AI readiness reviews**—evaluating internal processes against GenAI requirements .
- Guidance on next-gen security tools such as **SASE** (Secure Access Service Edge) that unify VPN, SD-WAN, zero-trust, and cloud infrastructure .

Thought Leadership & Insights

TakTik actively shares content on LinkedIn, covering themes like:

- **AI integration** in SMB ecosystems
- Evaluating the ROI of cybersecurity spending
- Understanding and implementing **SASE**, **private cellular networks**, and **cloud strategy**

This underscores their expertise and dedication to keeping clients informed about evolving tech trends.

Helping business reduce IT costs, increase productivity and mitigate cyber risk
