WHY CHOOSE CUSTOM CABINETS?

PREMIUM MATERIALS Quality plywood casework, hardwood components and premium doors for strength, stability and appearance.	DURABLE FINISHES High-performance finishes selected to resist moisture, staining, cleaning and everyday wear.
TOP-QUALITY MECHANISMS Premium soft-close hinges and full-extension drawer guides for smooth, quiet, adjustable operation.	BUILT TO FIT Cabinets, panels, trim and storage are sized around the room and appliances - minimizing fillers and wasted space.

Includes the cabinet package and installation. Countertops, appliances, demolition, plumbing/electrical, flooring and backsplash are separate.

Whole-kitchen context: High-end Southeast Michigan kitchen renovations commonly run \$75,000 - \$150,000+; custom Ann Arbor design-build projects often start near \$90,000.
