

Women & Family Enrichment Services of Jacksonville, Inc. empowers vulnerable women and children in Northeast Florida by connecting them with essential resources and opportunities to improve their quality of life.

WFES was established in 2020 by Danita L. Matthews after years of teaching and mentoring women and girls in Central and Northeast Florida. Our organization is built on her belief that every woman and child deserve to be treated with dignity and respect.

Our organization addresses critical needs by connecting families to basic resources such as food, clothing, housing, and employment. In addition, we provide impactful programs, including:

	Mommy Mini Camp: Life skills training designed to equip young mothers with the tools they need to thrive.
	Feed Our Scholars: Providing meals to children from Title 1 schools during spring break.
	Scholar Ready: A back-to-school outreach program ensuring children have the supplies they need to succeed.
	Stockings of Love: A Christmas outreach initiative bringing joy to families during the holiday season.
	FavHER Mentoring Network: Offering intergenerational mentoring to empower women and build lasting connections.

Through these programs, we strive to create a community where every woman and child can excel and live with dignity.
