

ICD-10 CM Codes Potentially Relevant for iPatch™ Applications

The ICD-10 codes listed below are provided to serve as samples or references and are not intended to be comprehensive, provide medical advice, nor express reimbursement policy. Although these codes are potentially relevant to the use of iPatch amniotic membrane for ocular procedures, the list is only meant to be informative, not a recommendation or product claim. C5 Biomedical does not assume responsibility or liability for the accuracy or completeness of this information.

Ultimately, it's up to the clinician to determine what is in the best interest of their patients and how to appropriately code and charge for those products and services.

If you are using this product, or a similar product, you already know that laws, regulations, and policies regarding reimbursement change (often). It's a good idea to talk with the experts and seek qualified counsel regarding coverage and coding questions.
