Dental Emergencies and toothaches keep children in pain and prevent them from being able to eat, play, and learn. These problems are preventable. Sealant programs have been proven to reduce these type of emergencies in children.

Toothsavers is here to help!

Tooth Savers provides PAIN FREE preventive services performed by a licensed dental hygienist right within your child's school. DSHS/Provider One, private insurance, and reduced private pay fees will pay for these services. **DSHS/Medicaid/Provider One pays 100% for these services!** We work closely with local dentists to provide referrals to families do not have one already.

****OUR VISITS DO NOT TAKE THE PLACE OF REGULAR DENTAL VISITS****

- **Oral Health Evaluation**

Includes an oral health assessment and evaluations of the teeth and gums where we will check for any possible cavities or other concerns.

- **Preventive Services**

FLUORIDE VARNISH -brush on vitamin to protect against cavities and strengthen enamel

TOOTH SEALANTS - painless procedure placing a tooth colored protective shield on the grooves of back teeth blocking cavity causing bacteria from entering.. These can last years, depending on the tteeth and individual child.

*All treatments are based on the current condition of the child's oral health., we only place sealants on healthy, and visually cavity free teeth. Toothsavers willl do their best to make your child's visit a safe and fun experience. We will do our best to make every child comfortable but, will not force them into doing anything.

- **Educational Services**

Individualized Oral Hygiene Instructions including: proper brushing & flossing methods, the importnace of good oral hygiene and regular dental care.

Toothsavers is dedicated to giving your child a positive & fun dental experience! Each child receives a toothbrush, a flosser, and a prize. They will also be given a report home detailing services done and referral names of dentist accepting Medicaid/provider one insurance.

****DSHS/Medicaid/Provider One pays 100% for these services!****

*We do not perform cleanings as we do not want to interrupt your child's regular dental care at their dental office. All services we provide will not interfere. Your child should be seen by a dentist at least 2 times per year for cleaning and exam.
