

Sealants keep your kid's whole body healthier.

They can prevent cavities by up to 80%

MEDICAID COVERS 100 %

Tooth Pain is the #1 Reason Kids Miss School We Want To Help!

Toothsavers provides dental sealants (thin coating placed in the grooves of back teeth to prevent cavities) and other preventive services.

Services provided for students right at their school. Our goal is to save families time and to keep kids healthy.

- Services provided:**
- Dental Sealants
 - Oral Screenings
 - Fluoride Varnish
 - Oral Health Education

All services are provided by a gentle, experienced dental hygienist. It is fun, safe, & pain free!

Students are sent home with a toothbrush and a prize, and a Toothsavers report.

**Toothsavers follows strict CDC infection control guidelines to keep your child safe!*
