Industrial Styling

Getting in the mood

When planning your new bathroom it may be hard to know where to start. Visualise your ideas and thoughts with a mood board using images you see on websites and social media channels like Pinterest and Instagram; it's a great way to narrow down the bathroom styles you like and will help you create your perfect look.

Be sure to follow us for lots of inspiration and ideas

Find a local Showroom

Next, you will want the advice of professionals who can help you with their expertise and turn your ideas into reality. Our Bathrooms to love website has an easy showroom locator to help you find one near you www.bathroomstolove.uk/find-a-showroom/

QR Codes & Enhanced content

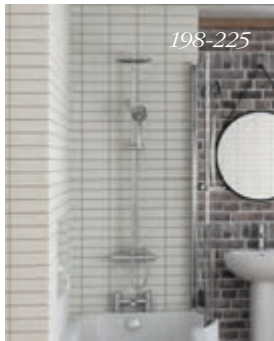

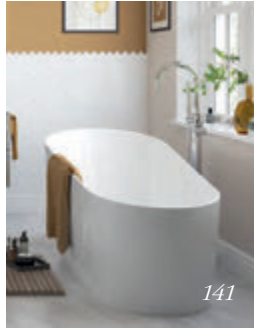

Throughout this brochure, you will see QR codes next to certain products. Point your device camera at the code and a link will appear — simply tap the link to see our product videos.

View our products in your space

With Augmented Reality (AR), imagination becomes reality, as you can see how our products will look and fit in your bathroom. Simply scan the QR codes with your smart device to access AR technology to visualise the products in your own home.

Fully shrouded - straight to the wall to hide pipework

Back to wall

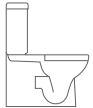

Semi recessed basin

Open back - giving easy access to pipes

How to choose the right suite options for you

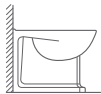

Close Coupled WC

A close coupled WC has the cistern resting directly on top of the pan towards the rear.

Soft Close Seat

The soft close function ensures that the seat and lid close slowly without banging against the pan, reducing noise and risk of damage.

Back to Wall WC

A back to wall WC has the concealed cistern hidden behind a wall or fitted furniture.

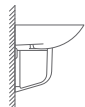

Full Pedestal

The most popular choice, a full pedestal hides all the pipework whilst supporting the basin.

Wall Hung WC

The pan is held off the ground by a hidden supporting frame and, as with a back to wall WC, the cistern is hidden.

Semi Pedestal

Increasingly popular, a semi pedestal sits under the basin and hangs from the wall, freeing up floor space below it.

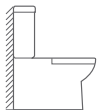

Rimless WC

Rimless WCs are easier to clean as they flush without needing a rim.

Semi Recessed Basin

Designed to be mounted into a work surface or furniture, the front of the basin protrudes forward, whilst the rear part is recessed.

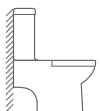

Fully Shrouded

The waste pipe and water inlet are fully shrouded within the ceramic, the toilet sits flush against the wall.

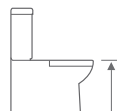

Short Projection

Reduced depth pans don't project out into the room as far as a standard toilet, making them perfect for smaller spaces.

Open Back

Open back toilets have access at the back for your pipework, perfect if you are planning to box in the pipes from left or right.

Comfort Pans

Set at a 450mm height or more, Comfort Pans provide added comfort, especially for taller people or the elderly.

Tilia

Square design with a soft finish

On-trend design, with a smooth finish to this stylish square suite.

It's fine design incorporating ultra thin edges complements any bathroom design.

Supercast® baths

*What is Supercast®?
Strength and beauty combined*

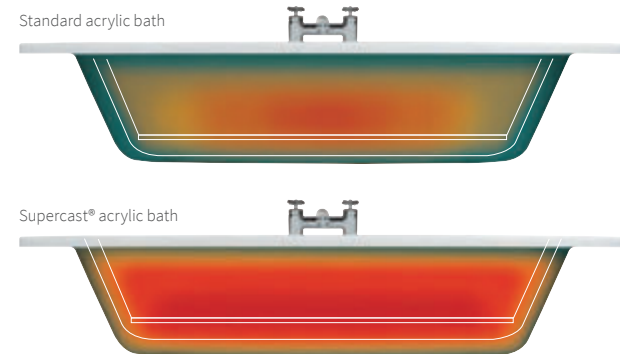

Supercast® is a substantial reinforcement process for an acrylic bath.

This reinforcement process results in each bath being incredibly strong and hard-wearing. This gives you the reminiscent assurance of an old cast iron bath with the natural warmth and quality acrylic has.

Acrylic's unique properties make it ideal for manufacturing baths. Acrylic allows itself to be moulded into many shapes giving many possibilities for varied designs, an attribute that enables baths to be manufactured with design and function working in harmony. The natural gloss is cast all the way through the acrylic resulting in a product that is smooth and ever so easy to clean.

The intensive reinforcement processes and final (grey) 'flow coat' jacket to the entire underside of the bath adds strength and insulating properties. This keeps your bath water hotter for longer!

SUPER STRONG

Supercast® reinforcement process results in a strong, hard-wearing bath

INCREASES INSULATION

Keeps your bath water hotter for longer

WARM TO THE TOUCH

*Vertical Pole	£240	n/a	DIEX0016

How it works

As you can see from the diagrams on the left there are many combinations that can be made.

If you wanted to make up a walk-in wetroom for an area to fit on to a 1200 x 800mm tray or floor. You pick a 700mm and a 800mm panel, which also includes the recommended 500mm minimum opening for the walk-in. So in order to build up your own ideal wetroom area just choose the panel sizes from the table below.

FEATURES

- Height: 2015mm (including rail)
- 8mm toughened safety glass
- Easy clean glass coating
- Suitable for bath wetroom floors and on shower trays
- Comes with 1 metre stabilising bar which can be cut to fit your space

* Vertical pole can be bought separately and retro fitted to glass thickness of 6mm, 8mm and 10mm and can be cut to fit suitable height.

BOOST & Loft

Created by MERLYN SHOWERING

Vivid Boost is a range of shower enclosures with a pre-assembled frame that makes it much easier to fit with 6mm glass and at 1900mm high it has been developed to offer exceptional quality.

Vivid Boost loft has all the features of the Boost range and has been developed especially for loft rooms at a lower height of 1800mm.

TRAYS

Linear Shower Trays

Unique to the Linear range is smart water capture technology where liquid is drawn from the surface and delivered at the correct velocity to a capture chamber beneath the waste cover. This ensures that the vortex waste unit is fed at the optimum rate allowing it to function at up to an incredible 30 litres per minute, keeping excess water and soap deposits to an absolute minimum. The waste unit has no moving parts and is entirely self-cleaning, making this technology extremely reliable and reducing the possibility of blockages.

- Designed & made in the UK
- 25mm high, 100% natural stone resin
- Rectangular 75x297mm stainless steel flush fitting waste cover (full load bearing)
- Lifetime guarantee

TRAYS INCLUDE WASTE

High flow vortex waste with stainless steel cover

196 www.bathroomstolove.uk

Low profile trays

With an incredibly discreet profile of just 45mm, the Slimline Tray offers the contemporary design of a wetroom styling. Whether it is installed flat to the floor or raised on legs, it's sure to impress.

The 90mm fast flow waste allows up to 32 litres of water to be carried away every minute.

- Quick fit leg kit
- 45mm single skin acrylic capped molding with stone resin back layer - making these trays 30% lighter than standard resin trays
- Low profile design
- Tested flow rate of over 32 litres per minute
- Install flat to the floor or raised on legs
- 10 year guarantee

Includes self adhesive pads for flexible installation.

shower
collection
198-225

Choose a mixer shower that connects to the hot and cold water supplies and then mixes the water inside the shower to your selected temperature.

Mixer showers normally deliver a higher flow rate than electric showers and are often thermostatic to protect against scalding. Ideal for homes with readily available hot water. You can also add a pump if required to boost the flow from a gravity fed system.

Alternatively, electric showers connect to the cold water main supply. A heating element inside the unit heats up the water as it passes through. It doesn't rely on stored water and provides instant hot water on demand.

Mixer showers

Thermostatic valves

Thermostatic mixing valves protect against scalding. The thermally sensitive mechanism within the valve mixes hot and cold water to a preset temperature. The mechanism automatically compensates for any variations in pressure or temperature to maintain a safe temperature.

**EXE LEVER THERMOSTATIC
BAR MIXER SHOWER**
DICM0074 **£269**

- Easy to use lever handles
- Suitable for all water systems including gravity fed
- Durable design including ceramic disc flow control

Electric showers

These connect to the cold water mains supply. A heating element inside the unit heats up the water as it passes through. It doesn't rely on stored water and provides instant hot water on demand.

Amore

Sleek, modern and ultra-stylish, Amore is an elegant and easy-to-operate shower range you're sure to love using first thing.

- Choice of three finishes
- Crisp white digital display with temperature read-out
- Sleek, contemporary cover
- Touch activated power selector, on/off button and temperature control dial
- Stylish slender shower kit with 22mm rail
- 5 spray pattern rub clean shower head
- 1.5m anti-twist hose

Triton
SHOWERS

Power showers

Triton's silent running thermostatic power shower is so quiet that when the water is running, you won't hear the pump, and as such has been awarded the Quiet Mark award of approval.

The AS2000SR is the perfect solution for those with low pressure systems, providing a great flow rate of up to 14 litres per minute.

**AS2000SR SILENT RUNNING
THERMOSTATIC POWER SHOWER**
DICM0502 **£714**

- Silent brushless motor technology also provides unique continuous running performance, means no waiting in-between showers
- Easy to use start, stop button and variable temperature and flow controls to select the perfect shower setting
- Ideal replacement for AS2000XT

Our power shower comes with a 1 year parts and labour guarantee.

- 278-295** Mirrors
- 296-299** Lighting
- 300-305** Accessories

Heating features

Radiators & Towel warmers

CH *Central Heating*

The benefit of this type of installation is that it is economical to run when the central heating is on. Suitable for use with indirect central heating systems (your plumber/installer will be able to advise the type of system you have). The radiator is fitted to your central heating system and works alongside your existing radiators.

E *Electric*

The benefit of this type of installation is that the radiator can be installed almost anywhere and does not require any pipework. It has the added versatility of being able to be turned on and off whenever required, regardless of whether or not the rest of your central heating is on. An electrical element kit (see page 274) with a fused spur is required and wired to your electricity supply. The electrical element is screwed directly into the radiator and heats the water.

DF *Dual Fuel*

The best of both worlds! This type of installation is plumbed with indirect central heating systems and/or your electrical supply. This guarantees the low cost of a central heating system during the winter whilst ensuring the versatility of being switched on and off independently during the summer months. Central heating, electric or both - the choice is yours!

Underfloor heating

With over 25 years of innovative design, Warmup's radiant underfloor heating solutions are trusted for their high-quality design, ease of installation and market-leading warranties.

As the world's best-selling floor heating brand, Warmup's range of energy-efficient electric and water floor heaters and thermostats have been installed in over 2.5 million homes.

All Warmup products feature comprehensive warranties and installation guarantees, and their 24/7, 365 days a year customer support offers you true peace of mind.

WARMUP STICKYMAT

The Warmup StickyMat consists of a thin loose wire evenly spaced and taped to sturdy glassfibre mesh with pressure sensitive adhesive. It allows for the fastest and most secure installation of electric underfloor heating. Simply roll out a length, cut, flip and stick down the mesh until the floor area is covered. It is perfect for evenly heating large or regular-shaped rooms.

- 150 watt undertile sticky heating mat 1m² DIAC0022 £182
- 150 watt undertile sticky heating mat 2m² DIAC0024 £252
- 150 watt undertile sticky heating mat 3m² DIAC0026 £341
- 150 watt undertile sticky heating mat 4m² DIAC0028 £422

WARMUP LOOSE WIRE SYSTEM

The Warmup Loose Wire System uses an ultra-thin, dual-core heating wire that is flexible, easy to install and will not raise floor levels. This system is quick to install and has a single connection lead for fewer steps. It offers flexibility and is ideal for precise installation in irregular shaped areas.

- Dual wire undertile heater 300 watt - 1.5 to 2.4m² DIUH0002 £222
- Dual wire undertile heater 400 watt - 2.5 to 3.4m² DIUH0004 £258
- Dual wire undertile heater 600 watt - 3.5 to 4.4m² DIUH0006 £357
- Dual wire undertile heater 800 watt - 4.5 to 5.9m² DIUH0008 £464

Warmup
FINISHING TOUCHES

6iE SMART WIFI THERMOSTAT

- Onyx Black DIUH0014 **£390**
- Bright Porcelain DIUH0016 **£390**

The 6iE Smart WiFi Thermostat combines advanced technology with premium design and materials to create the ultimate underfloor heating controller. It is quick to install, comes pre-programmed and can be up and running within a matter of minutes.

Featuring the world's first Smartphone touchscreen on a floor heating controller, the 6iE WiFi Thermostat offers true ease of use - simply scroll and swipe to set your ideal heat schedule. The 6iE can be personalised with custom photo backgrounds and its clean, low-profile design will suit all contemporary homes.

TEMPO DIGITAL PROGRAMMABLE THERMOSTAT

(for electric and hydronic underfloor heating up to 16A)

- Porcelain White DIAC0030 **£188**
- Piano Black DIAC0032 **£188**

The Tempo Digital Thermostat is an easy-to-use programmable underfloor heating controller that offers a clear and simple way to set your ideal heating schedule. With intuitive design, the Tempo can be up and running in mere minutes and its Early Start algorithm means it can learn how long it will take to heat up a room, making sure it's at the right temperature, at the right time for you.

Suitable to use with all Warmup Underfloor Heating Systems, the Tempo thermostat offers true ease of use; with a twist of the dial, you can have radiant floor heat when you want it.

ELEMENT WIFI THERMOSTAT

- Dark Chrome DIUH0018 **£277**
- Rose Gold DIUH0020 **£277**

The Element WiFi Thermostat has been designed with simplicity and stylish functionality in mind. It brings energy-efficient heating control to all Warmup floor heaters. Combining Smart technology with simple, contemporary design, the Element WiFi Thermostat is the perfect all-rounder to control Warmup heating systems.

The Element WiFi Thermostat utilises simple touch buttons for accurate control of your underfloor heating system. Its sleek, unobtrusive design will suit any home décor.

SmartGeo technology learns the end-user's routines; offering radiant warmth at the right temperature, at the right time, automatically. Plus, with energy-monitoring functionality and the ability to be controlled remotely, using the Element with Warmup's 'MyHeating' and 'AutoSwitch' smartphone apps, Element can reduce energy usage by 25% and help save over £400 on the user's energy bills.

Mirror features

Battery Operated - If you want to avoid wiring but still require LED lighting. Quick and easy to install.

IP44 Rated - All of our products comply with electrical safety regulations and have been given an IP rating of 44, which protects against sprays and splashes of water. See technical specifications for bathroom zones.

Demister Pad - Many of our mirrors contain a demister pad which gently heats the mirror once it is switched on. This then makes the mirror steam free.

Rotatable - Some of our mirrors can be positioned landscape or portrait.

Touch Sensor - Easily allows you to switch your lights on and off with touch.

Infrared Sensor - Easily allows you to switch your lights on and off with the swipe of a hand. No touch needed.

Charging Socket - Suitable for electric shavers and toothbrushes.

Dimmable - Lighting that can be adjusted at the touch of a button.

Colour Changing - Adjust the light from cool to warm.

Lighting

Our stunning collection of bathroom lights are all IP44 rated and so suitable for use in zone two.

- ZONE 1**
Electrical fittings in this zone require a separate extra low voltage and a minimum rating of IP65 (splash-proof).
- ZONE 2**
Electrical fittings in this zone require a minimum rating of IP44 (splash-proof).
- OUTSIDE ZONES**
Electrical fittings in this zone require no IP rating (unless cleaned by water jets).

Shower water systems

There are a few different types of water systems in homes in the UK. We can usually make some assumptions about the sort of water pressure each will give.

GRAVITY FED SYSTEM

This is usually a tank in the loft space or inside an airing cupboard. A basic guide to establish how much pressure it will deliver is how high the tank is above the tap or shower. If the tank is 2 metres above the level of the tap or shower, the water pressure will be 0.2 bar. If it is 5 metres, the water pressure will be 0.5 bar. Generally this type of system is low pressure however you can increase the pressure by installing a pump. It is recommended to seek advice from a qualified engineer or manufacturer before choosing your pump as these vary in performance.

COMBINATION BOILERS

These are high pressure systems and are usually set to operate between 0.8 to 1.5 bar. Minimum and maximum pressure can be checked with the manufacturer however most boilers have a gauge to show what pressure it is operating at. Combination boilers have an integrated pump so if the water pressure is too low for your required application, adding another pump can damage the boiler.

SEALED/UNVENTED SYSTEMS

These are modern systems. If you have a hot water tank but you don't have a cold water tank (cistern) in your loft or garage, this is an unvented high pressure system. They are quite uncommon as they are more expensive however they can usually deliver around 3.0 bar of water pressure.

Mirrors & lighting

ZONE 1

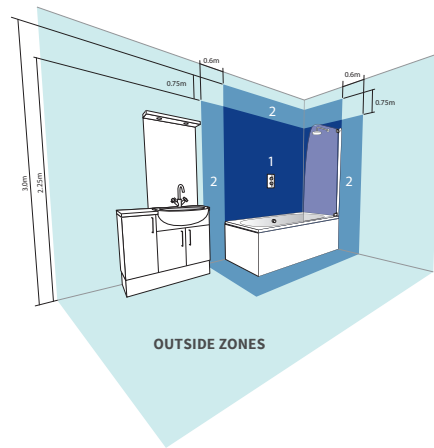

Electrical fittings in this zone require a separate extra low voltage and a minimum rating of IP65 (splash-proof).

ZONE 2

Electrical fittings in this zone require a minimum rating of IP44 (splash-proof).

OUTSIDE ZONES

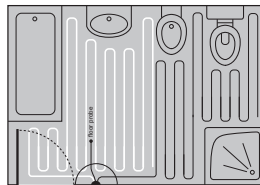

Electrical fittings in this zone require no IP rating (unless cleaned by water jets).

Terms and conditions

Your new bathroom products have been designed and manufactured to high standards and all come with a reassuring manufacturer's guarantee. Guarantees apply to manufacturing defects and do not apply to accidental damage, wear and tear or any item or component rendered defective by unsatisfactory planning, faulty installation, improper or negligent use or damage resulting from failure to maintain the product in accordance with the customer care instructions. Guarantees do not cover any product that has been modified or altered in any way.

Guarantees do not cover any product that is installed with a fault that would have been clearly evident before installation. In the interest of continuing design development and product improvement, we reserve the right to amend or adjust specifications at any time. Where an identical product is no longer available we will supply the nearest equivalent from our current range. Guarantees are for the original purchaser of the product, they may not be transferred to a subsequent purchaser of the premises in which the product is initially installed.

Due to our policy of continuous improvement, we reserve the right to amend specifications, designs and colours without prior notice.

Suggested selling prices are including VAT. Due to circumstances beyond our control, prices may have to be altered including changes to the rate of value added tax.

The colours and finishes shown in this brochure are as accurate as possible within the limits of the printing process. Please note we always recommend viewing an actual swatch of our furniture ranges before purchase.

Whilst every effort has been made to ensure accuracy of the information supplied herein, we cannot be held responsible for any errors or omissions.
