

Mereway Bathrooms®

There are three ways to fit your bathroom.

Whichever one you choose, you'll be taking the first step to creating a bathroom that will become as individual as you.

Fitted

Floor standing and usually stretching from wall to wall, fitted furniture makes the best use of limited space, hides all those ugly pipes and makes really good use of those awkward corners.

Modular

Modular furniture appears to float off the floor as there is no plinth. Suspended and secured to any wall, it extends the floor space and makes for a real eye catching centre piece for any bathroom.

Combination

Using a combination of the two, your bathroom can benefit from the advantages offered by both fitted furniture that makes the best use of space and modular for that iconic suspended look. The possibilities are endless...

Now lets talk about
the look of your new
bathroom.

This is the second step and its all
down to your personal preference.
With six ranges to choose from,
there's plenty of choice.

In the following pages you will see a variant of stunning bathrooms, these are available in multiple finishes.
Please ask your retailer for more details.

Adriatic *in Heritage Green Matt*

Free sample swatch service

Choosing the perfect finish for your bathroom is never an easy choice. We therefore encourage you to take advantage of our sample swatch service to order up to 5 free swatches to be delivered to your address.

Simply visit www.merewaybathrooms.co.uk to request your samples.

Co-ordinated cabinet finishes

The majority of front finishes are available with a colour co-ordinated matching interior/exterior cabinet. This eliminates the hassle and additional expense of ordering and fitting matching plant-on end panels and makes dimensional planning much easier.

Example of colour co-ordinated cabinet with matching door finish.

Gable side cabinet finishes

Where a co-ordinated cabinet finish is not available the unit can be supplied with fitted matching gable side panels and a light grey interior. This eliminates the additional need and expense for matching plant-on panels and makes dimensional planning much easier.

Worktop finishes

Our solid surface worktops are made from a modified acrylic material that is durable and non-porous with hygienic qualities that make it easy to clean and maintain. Supplied 12mm (11 finishes) & 20mm (5 finishes) thick with a sharp radius top edge to give a slim leading edge design. Available in 16 carefully chosen finishes offering solid colour throughout, Fusion is the ideal surface for the bathroom environment.

Lustre (20mm)

SteriTouch®

We are proud to offer our premium range of Lustre worktops. The cultured marble Lustre range is hand made to order in the UK and available in 14 carefully curated, trend led designs ranging from true to life marble effect to high gloss sparkle, each offering the perfect finishing touch to your bathroom. Lustre's tops are extremely durable and due to their protective gel coating are 100% non-porous, waterproof and extremely stain resistant. In addition to their beautiful appearance, all Lustre worktops now have SteriTouch® included within the gel coat. SteriTouch® technology offers increased protection against bacteria and mould, restricting the growth of harmful micro-organisms responsible for illness, infection, odours, staining and material degradation. The anti-microbial properties of SteriTouch® have been verified by independent laboratories using the ISO 22196 test method. SteriTouch® is a registered trademark of Radical Materials Ltd

Laminate (22mm)

With a radius front edge to give a slim square effect, available in 20 carefully chosen finishes to complement our range of door colours from stone through to matching woodgrain effect.

Basins & Pans

Choosing your basin and pan is very important in the overall look and feel to your bathroom.

SEMI-RECESS 
These basins sit in semi-recess cabinets

FITTED INSET SIT-ON 
These basins sit within the cabinet

SIT-ON 
These basins sit on the cabinet

Mineral cast basins

mineral cast basins offer dimensional accuracy, which is not always achievable using ceramics and the gel coat finish is warm to the touch. Due to the non porous structure a totally hygienic and water tight construction is provided. Any liquids or stains will remain on the surface and can be simply wiped clean.

Ceramic basins

We have a variety of ceramic basins in designs and styles to accommodate individual tastes. Ceramic is the traditional choice when selecting a basin due to its robust quality. It is resistant to shocks and scratches whilst cleaning requires little time and effort.

Round Arco double wing

Ultimate design flexibility with our Round Arco double wing worktop with integral basin

To achieve the ultimate design flexibility our Round Arco double wing basin can be factory cut and finished on one or both wings to any length to a maximum of 2000mm.

Factory finished polished edge (shown below).

Design features

Cabinet features

With extensive experience in both development and design, we are proud to offer one of the most highly specified cabinets available. All our bathrooms are made to fulfil your individual order, and are manufactured to the very highest of standards in the UK.

Our quality drawer boxes are fully extendable allowing unrestricted access to the contents, and our 'soft close' system cushions both doors and drawers protecting fingers, cabinets and contents. Choose from handles, lighting, mirrors, ceramics and brassware to complete the look.

1. Traditional methods of glue and dowel construction supplied factory assembled for quick and easy installation.
2. Rigid 18mm MFC colour co-ordinated cabinets are available with the majority of front finishes offered, additionally fitted matching gable sides are an alternative where a co-ordinated finish is not available.
3. Matching 8mm solid cabinet backs on all co-ordinated cabinet finishes. Basin cabinets have removable backs for ease of plumbing installation.
4. All metal 110° three way fully adjustable clip on hinges with built in soft close offering easy adjustment and removal if required.
5. Cabinets are handed to avoid unsightly drilling holes.
6. All exposed cabinet edges are finished in ABS edging for a robust edge.
7. Stylish anthracite finish slim metal drawer boxes with soft close full extension runners and solid 16mm co-ordinated bases for strength and stability.
8. All plinth style cabinets are supplied inclusive with 200mm adjustable legs as standard and wall brackets for wall mounting if required.
9. Wall cabinets fitted with fully adjustable concealed hanging brackets.
10. All wall cabinets are supplied with clear glass middle shelves as standard Base cabinets are subject to a surcharge for glass option middle shelves.
11. Inclusive Handles or 'Push to Open' doors are included in the unit price.
12. 'Push to Open drawers' and 'Premium' handles are subject to a surcharge.
13. When ordering cabinets with combined semi-recessed basins the fascias are pre-cut and sealed to suit the basin.
14. Worktops can be supplied fabricated to size to suit your design with factory finished edges or in continuous lengths for on-site fitting.
15. All cabinets are made to order, assembled and hand finished in the UK. Cabinets are covered by a five year manufacturers guarantee.
16. Guarantee details for all non furniture items can be found on our website Please note: Soft close systems are removed from doors and drawers when the 'HANDLELESS' push to open option is ordered.

Mereway Bathrooms®

Mereway Bathrooms®

All our bathrooms are constructed using traditional materials and methods with an obsessive attention to detail. We are confident that you will not find comparable bathrooms built quite like this.

“Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs.”

Mereway Bathrooms is committed to being a sustainable manufacturer, focused on reducing any negative environmental impacts and building furniture in a sustainable and waste conscious manner. Actions that we are taking to fulfil our environmental, social and governance responsibilities include:

- Timber and wood-based products are purchased from responsible importers and shippers and wherever possible from either Forest Stewardship Council (FSC) or the Programme for Endorsement of Forest Certification (PEFC) approved sources. These standards assure buyers that timber is from well-managed forests;
- Burning appropriate waste from the manufacturing process to heat our factory, rather than sending waste to landfill;
- Installing lighting triggered by motion sensors to reduce unnecessary consumption of electricity;
- Sourcing locally produced products where possible to reduce freight;
- Investing in electric or hybrid vehicles and managing the logistics and delivery side of our business so as to reduce unnecessary journeys and minimise emissions;
- Reducing usage of single use plastics and recycling whenever possible, for example the cardboard used in our packaging.
