...here are just a few of them.

1 **Colour Co-ordinated Cabinets**
Our bathrooms have 9 cabinet finishes that co-ordinate with many of the doors and drawers. They look as good on the inside as they do on the outside, which is a good sign of a quality manufacturer.

6 Choose your basin & pan

Choosing your basin and pan is very important in the overall look and feel to your bathroom.

MINERAL CAST BASINS

Mineral Cast basins offer dimensional accuracy, which is not always achievable using ceramics and the gel coat finish is warm to the touch. Due to the non porous structure a totally hygienic and water tight construction is provided. Any liquids or stains will remain on the surface and can be simply wiped clean.
