

Background

Since January 2023, CITB has mandated that training providers create company-branded course publications for temporary works training courses, provide them to trainees to takeaway, & maintain records showing they have been provided to trainees. Providing temporary works training course publications is mandatory & these requirements are subject to audit.

Problem

Varying quality, non-conformity with industry & CITB standards, scheme of works & temporary works training course learning outcomes will impact the learning experience.
