

WHAT WE DO

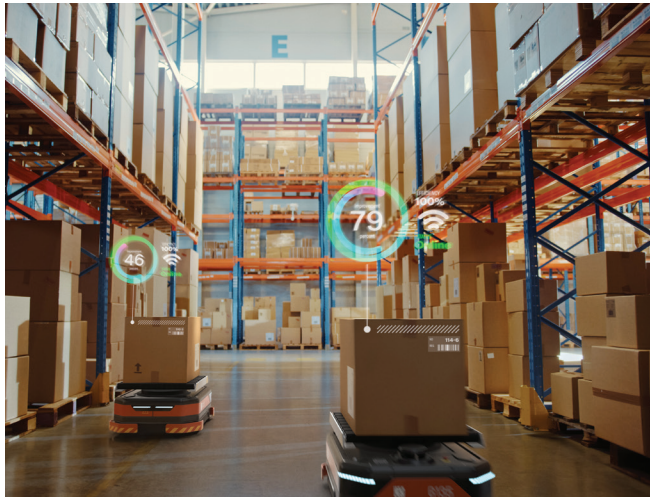

Drodex provides professional and technical services and solutions to support mission-critical national priorities across the defense, intelligence and federal civilian agency markets.

OUR PHILOSOPHY

Our philosophy is quite simple. We employ highly capable people adept at applying the latest processes and technologies to deliver high quality professional service.

OUR FOCUS IS PEOPLE

We focus on people as customers and employees working together to achieve results. By providing our employees with the support and tools they need to serve our customers assures our clients expectations are met and exceeded.

PEOPLE

Our most valuable asset is our people. Experienced. Innovative. Problem-solvers. Drodex's strong team and diverse skills are the foundation of our high-performance as well as our broad access to professional staffing services across program and function mission areas.

These include:

- Supply chain support
- Maintenance management
- Information technology
- Advanced analytics
- Acquisition and procurement
- Customized training
- Customer support

EXPERIENCE

Drodex was founded in 2012 with a senior leadership team that averages more than 30 years each in the Federal market. With an 89% employee retention rate, Drodex employees have a high level of satisfaction and commitment that reflects in our overall success in customer satisfaction. Some of our prime contractual clients some of which include:

- Army Joint System Integration Laboratory (JSIL)
- Department of Justice Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF)
- U.S. Department of Health and Human Services Asst. Secretary for Preparedness and Response (HHS/ASPR)

MISSION-CRITICAL SERVICE AREAS

- Chemical/Biological/Radiological/Nuclear threat response
- National security threat analysis
- Advanced research and development
- Modeling, emergency preparedness
- Emergency management/response
- Logistics/Supply Chain management
- Acquisition and procurement
- Policy and planning
- Financial management planning and analysis
- Public Health communication and strategic stakeholder engagement

RAPID RESPONSE

With today's unprecedented challenges, Drodex stands ready to react to immediate needs with agility and preparedness vital to support public health and safety. Our proven track record of government agency logistics management attests to our commitment to seamless and effective operations.

DEPENDABLE RESOURCES

The relationships we established with approved, high-quality and cost-effective vendors and commercial off-the-shelf suppliers give us the ability to react with immediate turn-around and a supply chain that delivers.

CUSTOMER SATISFACTION

Our mission is 100% satisfaction. We provide every customer with superior service at the best value on a timely basis. Each employee is equipped and qualified to exceed the customer's expectations and deliver the best service every time.
