Flow Dividers	Selector Valves	Flow Controls	Hoses	Crimp Fittings	On/Off 3 Way Valves	PO Checks
Divides and combines flow for dual jack trailers.	Adapts 1 power unit to be used for 2 functions like dump and jack lifting.	Pressure compensated flow controls	Various Danfoss hose sizes and styles to meet your application needs.	Bridon™ Crimp fittings are available in all sizes and mating ends.	Bulkhead mount on/off ball valve can be used as an on/off or a passive anti-cavitation 3rd port connected to a reservoir.	Manifold or line body mounted valves for holding pressure with low leakage. Can be combined with a flow divider.
06-250-280 Flow Divider	06-250-384 Dual Function	Limit the flow regardless of pressure load and can be installed in the cylinder port directly.	03-800-06 SAE -6 Hose	Stainless steel is also available.	06-250-231	06-250-330
06-250-358 W/ PO checks	06-250-386 SAS™ Valve	06-250-12 SAE -6	06-800-08 SAE -8 Hose	03-810 Zinc plated	06-250-360	
	06-250-381 SACS™ Valve	06-250-366 SAE-8	Other sizes and pressures available	03-865 304 Stainless		
		06-250-292 SAE-8 JIC-6				
		06-250-143 SAE-8 JIC-6
