Core Capabilities

N-FOSEC Consulting is a Minority Woman-Owned Small Business specializing in Cybersecurity. We provide reliable and Cybersecurity solutions to businesses and organizations in the DC Metropolitan Region and throughout the US. With over 17 years in Cybersecurity and Technology, our team has an instinctive ability to navigate through information systems, analyze and identify security and privacy risks.

Security Assessment & Authorization

We provide our clients with cybersecurity assessments that are a comprehensive evaluation of information system policies, technical and non-technical security controls, documentation, policies, and vulnerabilities.

Risk Management & Compliance

We assist our clients in identifying, analyzing, and prioritizing security risks. We work with our clients to coordinate resources to mitigate, monitor, and control these risks' probability or impact through risk management and compliance regulations.

Operations Process Improvement

We assist our clients with implementing standard operating procedures and team solutions that are critical to preventing, detecting, assessing, monitoring, and responding to cybersecurity threats and incidents.

Key Personnel Support & Staff Augmentation

We provide Key Cybersecurity and Engineering personnel for On-Demand, Short or Long-Term projects to support business objectives, such as Validators, Security Control Assessors, Information System Security Engineers, Officers, and Managers.

Strategic Planning

We devise and implement cybersecurity plans that align with our client's short and long-term goals with detailed action plans to respond to security and compliance challenges to ensure an organization's growth and success.
