

FEATURED PRODUCT

Edition: April 2026

- **Multi-Drug Tests** enable the qualitative detection of multiple drugs and their metabolites in human urine, with fully customizable test panels. You can select your preferred combination for testing. Each product in the drug panel series features unique advantages: some utilize eco-friendly materials, others offer rapid read times, and some support multiple specimen application methods.

Single-sided panel

Double-sided panel

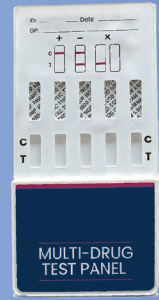

UX4A-MDT(X:2-12)

UX4B-MDT(X:2-12)

UX4E-MDT(X:2-20)

UX4F-MDT(X:2-28)
