

September Update

Paving project is complete. Some of the areas have some issues that have deteriorated since the roads were evaluated for the paving project. We will address those on a situational basis.

We will be looking at gravel needs and address those to the extent our budget will allow. We have some ditches that need attention as well.

As a note, there was no August board meeting and we will post July's minutes as soon as they are approved at the September Board Meeting coming up.

October Annual Meeting!

October 17th from 10 AM until Noon at the Waynesville Recreation Center.

Remember, our bylaws state this is to be held the third Saturday of October, so make note of that as we always get inquiries as to when it will be held.

We are working on the packets to be sent out to the owners so be on the lookout for those.

One major bit of news is By Laws! We have been working with our lawyer to redo our By Laws and the way we vote on the By Laws. We are diligently working to provide that info at the October Meeting.
