## NODO COLLECTION 2021 JEWELRY SYMBOL OF UNITY AND STRENGTH

DoDo proudly enriches the Nodo 2021 collection with new necklace, bracelet and ring designs featuring the 'knot,' a universal symbol of unity and strength, and a nod to the jeweler's origins.

Breaking free from convention, the DoDo brand was born of the revolutionary idea to put small pendants - made from just one gram of gold - on a waxed cotton cord, secured with a knot. Unisex and nonconformist, this new way of wearing jewelry became DoDo essential jewelry for men and women. Meanwhile, the knot ('nodo' in Italian) became a protagonist of the brand's first complete jewel line, the **Nodo** collection.

**Nodo** was first created for DoDo's 25th anniversary, its message being Stronger Than Ever. In this spirit of inclusivity, **Nodo** ties in diverse knot designs, metals and materials, to be mixed-and-matched, layered and stacked.

Historically, the knot is the symbol of resistance and unity, representing a bond, and the promise of love and inclusion. So too do new **Nodo** innovations, combining traditional Milanese goldsmithing, chic Italian design, and the brand's firm values of inclusivity. **Nodo** is made for all those who love, and for all those who love DoDo.

### NODO 2021 COLLECTION

DoDo presents new customizable Nodo designs and metals for the 2021 collection meant to be stacked and layered together - for a look that is truly **Stronger Together**.

A **Nodo** necklace in 9K rose gold or sterling silver connects two knots with a rigid bar, swaying from a delicate DoDo chain. With a clever 'bayonet' clasp, one of the knots may be twisted off to incorporate your choice of charms and components.

**Nodo necklace in rose gold**  
Euro 610

**Silver Nodo necklace**  
Euro 190
