

PRESS RELEASE

Protection during Flooding from Hurricane Matthew

InVest USA, a 501c3 nonprofit dedicating to protecting our First Responders through the donation of Protective Gear/Bulletproof Vests, is leading an effort to protect the property and citizens of the areas in the line of impact from Hurricane Matthew by utilizing its influence to partner with Global Marketing Empire Solutions to provide amazing new technology in the composition, deployment, and cost of sandbags. The partnership has included that the bags be purchased at cost....cheaper than current encompassed pricing for traditional sandbags. The synopsis can be viewed here https://www.youtube.com/watch?v=VMYtv_bKdFg.

Michael Letts, President of InVest USA and a Councilman on the Central Midlands Council of Governments for over thirty years said, "It is heartbreaking to see on the major news networks so many of my fellow citizens expressing their dismay that there are no sandbags or means available to protect their homes and businesses knowing there are over a million available at cost within a few hours reach of Charlotte. No one should have to feel helpless to protect their homes and property. We have just recently formed this partnership and were in the processing of

investusa.org

notifying Government entities of this option when Hurricane Matthew developed quickly.”
