

Oklahoma Bass Bash 2020

Virtual Edition

The Oklahoma Bass Bash is pleased to announce that we will be holding our 2020 camp virtually in partnership with Casady School. Our Bash faculty has been busy planning an outstanding experience and is excited to share it with our middle school and high school bass students.

This year the Bash will meet online M/W/F for two weeks beginning July 13. Each day will include such Bash favorites as bass ensembles, technique classes, private lessons, All-State and NCHO preparation and so much more. We will be meeting in our small and large groups principally through Google Classrooms and Zoom.

In addition to the usual Bash equipment, participants will need earphones and **two** Internet-capable devices such as a smartphone, tablet, or laptop. If you think you will have trouble finding two devices, please let us know and we will be happy to help you find a solution. We have put in the time to optimize the digital bass experience for our students and to ensure everyone who wishes to participate has the best possible chance to.

In addition to full-camp meetings throughout the week, our usual small groups will be meeting a few times each day beginning around 9:30 a.m., with plenty of time for screen breaks and practicing between sessions. Each individual group's schedule will be specially tailored by the faculty to suit its particular needs. Our aim is a ratio of 5 students per faculty member, with two faculty members per small group.
