WORKWEAR THAT WORKS FOR WOMEN

At CAT, we make workwear.
Ultra-functional, tough as nails,
dependable workwear. We are
known for our best-selling men's
workwear, but strongly believe
that men's gear should not be
the only option for women.

We have the same jobs as men, use the same tools, and deserve
the same functional clothing. After all, there is no such thing as
a lady drill, women's pliers, or a nail gun for her. So why should
women's workwear be any different or less than?

That's why we have taken a stand to recreate a line of workwear
that actually works for women. ALL women. Every shape and
size. We're also adding hammer loops, scuff guards, holster
pockets and knee pad pockets in our crusade for equality.

Take a peek inside to see our revolutionized workwear line for
women. Better yet, try it for yourself out in the field and tell us
what you think. [#CATworkwear4women](#)

BUILDING WORKWEAR FOR WOMEN IN TRADES

True workwear for women that fits and functions flawlessly.

Our mission is simple, to build a true workwear line for women that fits and functions flawlessly. Workwear that is tough, durable and full of features to better perform on the job.

Join the movement. It's a work in progress. But we vow to try hard. And we'll keep trying until we deliver exactly what is needed for every hard-working woman out there.

Tell us what you do, what you need, and how you use your CAT workwear. [#CATworkwear4women](#)

WOMEN'S WORKWEAR R&D

At CAT, we know a lot of hard-working women. They're at the core of this line, from the jobsite to the office.

When it came to reinventing Caterpillar's workwear for women, we reached out to over 100 women of all ages and ethnicities in a wide variety of trades—from pipefitters and ironworkers to machinists and electricians—all across North America.

Our diverse focus group gave us valuable information on fit, function, style, features, needs in the market, and the lack of women's workwear options. They told us some of the biggest challenges they face are being women in a male-dominated industry, getting the respect they deserve, and being treated equally. These women said they define success by loving what they do, learning new things, and providing for their families. And we heard loud and clear that they are sick and tired of buying men's gear in order to have high quality, functional workwear.

We couldn't agree more—and that's why we're here: relaunching our women's line to meet the needs of women everywhere.

FIT TO FUNCTION

In order for workwear to be safe, comfortable and functional, it simply has to fit. Well.

CAT Workwear offers a true women's fit—not a takedown from men's. Women's bodies have different weight distribution than men's. And frankly, we have a lot more variables. Between bust, backside and hips (and a variation of sizes on each), in addition to height and weight, a wider range of sizing options is imperative.

Because women's bodies vary so drastically, we perform in-depth fit testing. Sizes do not get exponentially bigger as the number gets higher. It's more about body type. And honestly, it's a bit tricky. But we are passionate about our quest and

will not rest until every piece of our workwear can accommodate every woman.

Come with us on our journey to outfit every woman in CAT Workwear. We are here to listen. Tweak. Listen. Tweak some more. And work as hard as you do to get it right.

“
We are known for our best-selling men's workwear, but strongly believe that men's gear should not be the only option for women.

CAT WORKWEAR

“
*Finally, women’s work pants that
actually have pockets big enough
for my tools!*”

WE WEAR THE PANTS

2H22 //// WOMEN'S WORKPANTS

CAT Workwear is known for making the best work pants in the industry. As a global leader in men’s work pants, we are bringing years of experience and all the top features and function of our best-selling styles to our women’s line. Our goal is to offer a work pant fit for every woman, for every job—whether she needs a pant with a built-in tool belt for her growing carpentry business, a twill trouser with cargo pockets for running the forklift, or a stretch canvas for her landscaping gig. Because it’s time that we wear the pants.

WOMEN'S OUTERWEAR

BECAUSE WEATHER DOES NOT DISCRIMINATE

Because the elements do not discriminate, we've created women's outerwear that is equally as functional and protective as men's. Our women's outerwear collection shields you from the rain, wind and cold while providing essential features for outdoor work environments. State-of-the-art fabric technology, large functional pockets, waterproof zippers, adjustable cuffs and ventilation are just a few ways we're improving those long days outside on the job.

“When the weather hits, this parka keeps me warm and dry so I can focus on my job.”

TOOL BOX 2H22 FIT GUIDE

WOMEN'S FIT MODELS

WOMEN'S FIT GUIDE

BUST: Measure around your chest at the fullest point. Make sure the tape stays horizontal while measuring.

WAIST: Measure around your natural waist. Find this by bending to the side - where the dip is, is your natural waist.

HIGH HIP: Measure around your hips 3" below your waist or 2" below your belly button.

LOW HIP: Measure around the fullest part of your hips when standing with your feet 6-8" apart.

INSEAM: Measure from the top of your leg to below the ankle bone with your feet 6-8" apart.
