Anderson Distilleries' Hibiscus gin is a simple, sharp, London Dry Gin infused with hibiscus flowers. This gives a dry and tannic blend of flavours. The addition of Hibiscus adds a fruity character reminiscent of citrus and cranberry, but without adding any sugar

Mixed into any citrus based cocktail the result is a spectacularly refreshing summer cocktail. We have tried it in the Tom and/or John Collins, the Gimlet, the Sour, the White Lady, and the Orange Blossom with great success. We have also used it to add a summery twist to classic gin cocktails like the Gin And Tonic, the venerable Martini and all its variations like The Bronx, The Queens, the Dirty Martini, and yes, even the Churchill

Ingredients: Angelica, Barley, Coriander, Hibiscus, Licorice, Juniper, Water

Made in Burnaby BC, from BC grown grains
