

MARCHESI DEL SALENTO

Dal 1711

Marchese di
Martignano

Our story starts in 1700 mainly thanks to the 'work of a famous hero of the eighteenth century in Salento, the Marquis of Martignano. The Marquis gave a great impetus to economic studies, with suggestions for reforms to enhance productivity. "Our ancestors already at that time had very felt the need to orientate the system of farming on the French model." It was from that time that it was given a great boost to quality viticulture which is still the basis of our history.

MARCHESI DEL SALENTO WINERY

Key words: elegance, Italian typicity, unique varietals, international style

Marchesi del Salento produces a range of superb quality wines from the deep south of Italy, in the 'heel' of the Italian peninsula, an area well known for its rich, fruity and full bodied wines.

The winery is located in the heart of the 'Salento' production area (south Apulia), on 250 hectares (600 acres) of rich land with an ancient wine-making tradition.

Thanks to its very favorable climatic conditions, the south of Italy can offer wines that are crafted in an International style, soft, juicy, round, and well structured but with unique taste.

The Cellar, located very close to the vineyards, is equipped with the latest machinery, enabling to produce very clean, fresh and modern wines. The barriques, used for "Il Gladiatore" wine, are stored in the underground historical cellar, for perfect aging conditions.

SABINO RUSSO
Marchesi del Salento winemaker

MARCHESI DEL SALENTO enhances the elegance of its wines by producing its labels on high-quality paper with gold metallic foil, fine embossing and attractively placing the labels high on its sophisticated bottles.
