PEMF

The 5th Element of Health

Health conditions that PEMF therapy can treat

Magnetic fields are not condition specific because the cellular reaction occurs in everybody. Thus, this treatment can be used to improve a wide range of health issues. It is commonly used for the following:

WHY PEMF?

- **Optimize Wellness - Non-Invasively^[1]**

PEMF generates energy at the cellular level without medically invasive procedures. This amplification of natural energy encourages the body to function more effectively for overall wellness.

- **Enhance the Body's Natural Recovery Process^[2]**

Address underlying cellular dysfunction by stimulating and exercising the cells.

- **Assist with Muscle Fatigue & Discomfort After Exercise^[3]**

Complement any training program.

- **Support General Relaxation^[4, 5]**

PEMF is a soothing and restorative modality.

- **Experience More Energy, Naturally^[6, 7]**

The body's holistic nature uses PEMF as a catalyst for full-body energy.

- **Amplify Athletic Performance^[7, 8]**

Harness the power of natural energy to supplement training and performance goals.

WHY PEMF?

DEEP RELIEF

PEMF (Pulsed Electromagnetic Field) therapy enhances the permeability of your cells, allowing for an increased exchange of nutrients and waste, thereby improving the capacity of your cells to promote overall health and healing in the body.

Optimal cell voltage is key to health and wellness!

WHAT TYPES OF AILMENTS MAY BENEFIT FROM PEMF THERAPY

 Stroke & TBI	 Fibromyalgia	 Autoimmune conditions	 Digestive disorders
 Bone fractures	 Sleep disorders	 Diabetic ulcers	 Skin issues
 Osteoporosis	 Migraines	 Kidney problems	 Diabetes
 Liver problems	 Arthritis	 Eye & ear issues	 Prostate disease

PEMF Reduces:

- Pain
- Inflammation
- Oxidative stress
- Stress
- Swelling
- Spasms

PEMF Increase & promote:

- Circulation
- Healing times of tissues & bones
- Osteoblast (bone cells) production
- Bone growth & repair
- Detoxification of cells

- Cell growth & repair
- Overall Energy
- Neuroplasticity
- Surgery recovery

NASA and Russian space programs used PEMF therapy to prevent fatigue, bone loss, and muscle atrophy

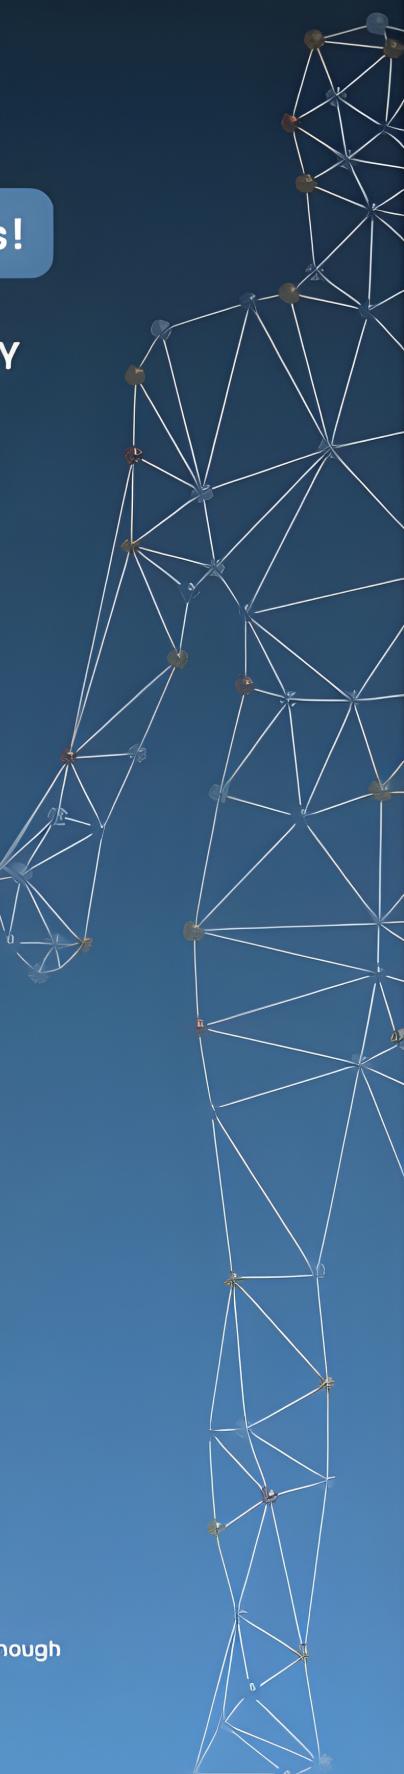

PEMF is FDA approved for various types of pain and bone healing

PEMF therapy improves the underlying cause of our health problems at the root. Cellular dysfunction

Science has proven that if our cells have enough electrical charge, the body will heal itself

THE “SWISS ARMY KNIFE” HEALTH SOLUTION THAT BELONGS IN YOUR HOME

SUPERCHARGE YOUR HEALTH WITH PEMF THERAPY

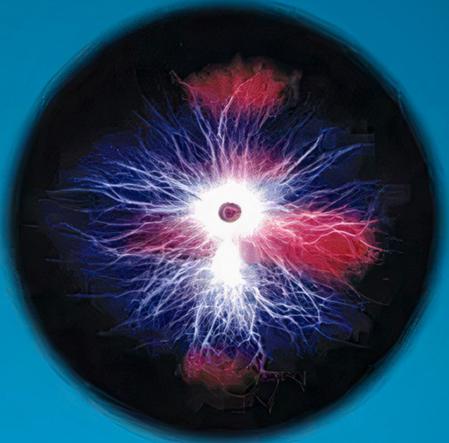

HOW PULSED ELECTROMAGNETIC FIELD (PEMF)
THERAPY CAN JUMPSTART YOUR HEALTH, BANISH PAIN,
IMPROVE SLEEP, AND HELP PREVENT AND RELIEVE
OVER 80 COMMON HEALTH CONDITIONS
