

UPDATE

Winter
2018

We promote joy through integration of personal growth and social good opportunities using our unique Individual talents to connect to each other and our community.

SO LArMAR development phases are: Vision, Concept, Launch, Prove, Multiply

The **Vision** phase was completed in April 2018. Over 300 people have contributed in one way or another over the past 3 years to help reach this critical milestone!

A special thank you goes to the **Founding Team** who worked over the past year to complete the Vision Purpose Statement above.

The project is now moving to the **Concept** phase. An **Advisory Team** was formed over the summer to help develop business plans and provide overall guidance for the Concept phase.

We are now forming **Prototyping Teams** that will operate during the Concept phase 2019-2021. The Prototyping Teams will develop the language, people and structure components needed for the **Launch** phase 2022-2023.

Prototyping Team areas include: advertising/public relations, art fair/art gallery/art studios, branding, coffee shop, community outreach/social good involvement, conference center design and partner, co-working space design and partner, culture/idea socialization language development, executive office design and partner, financial modeling, food options and partners, funding options, gift shops and partners, information systems, investors and other partners, legal options, marketing, personal growth consultants/education, recording studio design and partner, social media development, solar energy/clean energy partners, urban space architecture/design and development, urban space location/real estate and more!

If you or anyone you know would be interested in participating on Prototyping Team, just use the **CONTACT** tab to send us a message to indicate your interest and we will get back to you with more information. Feel free to forward this newsletter to anyone you think might be interested
