

DISABLED SUPPORTERS' POLICY

Invergordon FC is committed to following the recommendations of all Legislation and Good Practice relating to disability and disabled supporters.

Disability is a mental or physical impairment affecting a person's ability to engage in day-to-day activities and covers four officially recognised categories within the Equality Act 2010: mobility; sight; hearing and learning.

We as a Club shall do all we can to meet the needs of disabled supporters by introducing the following:

- Ensure "disabled access" to include wheelchair, visually impaired, hearing disabilities, learning difficulties and ambulant disabled supporters
- Provide 2 disabled parking spaces in the main car park
- Ensure adequate lighting in all areas of the Stadium
- Provide wheelchair areas in the Stand
- Provide Carers with free entry and seating close to their charge
- Provide seating for the partially impaired close enough to the pitch in conjunction with their individual impairments
- Provide a match commentator if required for the blind or partially blind
- Provide disabled toilets with easy wheelchair access
- Appoint a Disability Access Officer within the club and display on the web site with the appropriate e mail address
- Train stewards deployed in disabled areas on people handling and specific evacuation procedures in the event of an emergency

Disabled fans will be able to enjoy the same benefits many of us take for granted: a decent view, choice of location, ability to sit with friends and fellow supporters, cover from weather and fair access to tickets concessions.
