

GRIFFIN OAKS MAINTENANCE ASSOCIATION

As we welcome Spring, I would like to update you on GOMA's 2026 goals.

We replaced seven trees that had been removed for assorted reasons. The first week or so of April, Greenway Spray will apply weed control and fertilize the street grass strips. We did this last fall and had a great result. The reseeding of bare areas will start in May and continue as needed.

We are seeing some Home Modification Forms coming in for house painting, front yard updates, and fences. This is just another reminder that Home Modification Forms are required to be submitted for approval by the board. The form is available at Griffinoaks.org.

In the January 2026 meeting, I initiated a discussion regarding looking into the possibility of using a property management company. I had hoped to have additional information on this subject, but I had some medical problems that waylaid me for a while. I am back on this project and hope to have a representative from a local property management company attend the June 2026 Board Meeting to answer questions so we can make an informed decision.

I am thinking about hosting the June 2026 Board Meeting at one of the gazebos in Twin Creek Park. More information on this will be in the Summer 2026 newsletter.

Ted Sander, GOMA President

Upcoming Events in Central Point

Earth Day Celebration
April 22, 2026
4:00 – 6:00 p.m.
Don & Flo Bohnert Farm Park

Made in Southern Oregon
