

ConcreteDirect

Version 1.69 Expected August 12, 2020

New Features

Dispatch App:

- A new screen titled “Hazard reports” will list all FLRA hazards. [DETAILED BELOW](#)

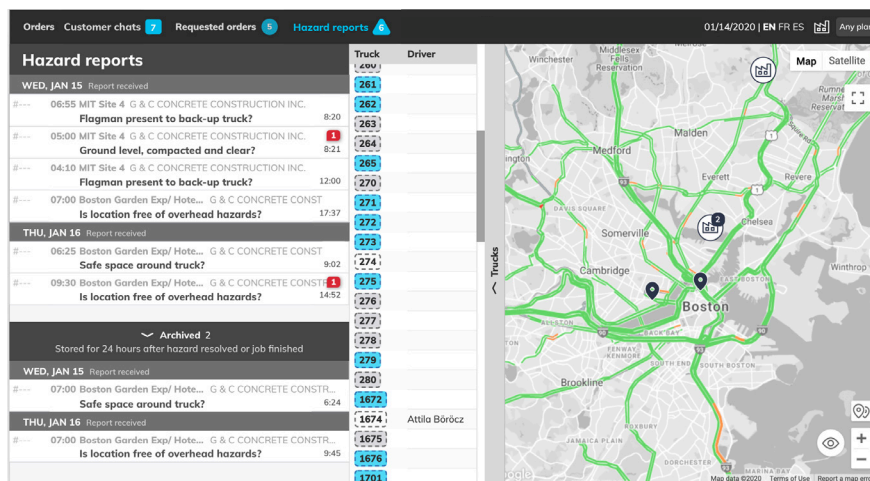

Customer App:

- When drivers indicate a hazard on their FLRA, a push notification will be sent within the order chat channel. [DETAILED BELOW](#)
- When a dispatcher sends an order request to Command, customers will receive a “[Dispatcher Name] is working on your order” notification.

Driver App:

- FLRA dialogs now include a Covid Reminder to warn drivers of the continuing risk. [DETAILED BELOW](#)
- The address search field has been merged with the direction card to improve the visibility of the map when planning navigation.

Dispatch App: FLRA Management with “Hazard reports

Dispatch App:

- Dispatchers will now be notified immediately when a jobsite hazard is reported

Customer App: FLRA Hazard Notifications

The screenshot displays the Customer App interface. At the top, there are three truck icons labeled 'Behind Value', 'Truck no. 1234567', and 'Ahead Value'. Below these is a 'Pre-Delivery risk assessment' section with a 'NO RISK' button. A 'Ticket' section is visible below. A modal window titled 'Field level risk assessment (FLRA)' is open, prompting the user to 'Check the following before unloading'. It contains a table with five safety questions and 'Yes/No' radio buttons. A red message states: 'Please ask for assistance to correct the hazard before unloading'. A large blue button labeled 'CONFIRM HAZARD' is at the bottom of the modal, with a hand icon clicking it. Below the modal, 'Order details' are shown, including 'Order no.', 'Date' (22 May - 16:00), and 'Plant address' (1831 Broadway, Saugus). The bottom navigation bar has icons for 'MAP', 'TICKET', and 'MORE'. On the right, a notification bubble states: 'A hazard on jobsite has been reported. One or more drivers answered field level risk assessment question "Truck at least 1m from excavation?" with "No". Please act accordingly.' with a timestamp of 12:53 AM and the label 'FLRA report'.

Safety regulation	Yes	No
Flagman present to back-up truck?	<input checked="" type="radio"/>	<input type="radio"/>
Ground level, compacted and clear?	<input checked="" type="radio"/>	<input type="radio"/>
Truck at least 1m from excavation?	<input type="radio"/>	<input checked="" type="radio"/>
Safe space around truck?	<input checked="" type="radio"/>	<input type="radio"/>
Is location free of overhead hazards?	<input checked="" type="radio"/>	<input type="radio"/>

Please ask for assistance to correct the hazard before unloading
