MISSION AND VISION OF PROJECT

MISSION

Our 10-week program will enable our students to obtain skills and knowledge as they navigate through their journey of life for their future, especially when living on their own or in college.

VISION

The courses will instill confidence, self-esteem, and discipline in our students. This project is beneficial to our youth, as well as our seniors who are committed to share their wisdom, knowledge, and skills. The goal of the courses is to enable them to "hold" their own regardless of who they are or where they are from.
