ADVANCED COMMUNICATION & TRAUMA RELEASE

Saturday, November 14 & Sunday, November 15

Kerns School of Healing, Ann Arbor, Michigan

Class is Full

Learn how to create rapport, through NLP (Neural Linguistic Programming), Reflective Listening, Body /Voice Reading, and Pacing. Use these tools during inventory in the beginning of your sessions which will inform you as to what to do on the table. Includes scanning; seeing how much you can hear, see and feel the landscape of the client and how that dovetails into the client's story or directly opposes it. Body Language- How do you read what's going on when the client's story and their body language is not congruent? Fascinating informative work!

UPDATE from Lisa: The upheaval and forced endings we are experiencing is from the recent full moon, eclipse and extraordinary astrological changes. The west coast has lost several well known beaches in a round of huge upsurge of waves, while the east coast has had rising tides flooding towns and homes leaving damage beyond what we've seen in our history. Please be prepared and be safe. Word to the wise- If you're asked to evacuate – do it! Everyone, my dear clients, please take good care of yourselves and stay in touch. I'm here if you need me!

Hope to hear from you soon!
