LIKE, FOLLOW, AND CONNECT

A leader in veterinary research equipment for more than 30 years

Veterinary facilities rely on medical equipment from DRE to provide quality care to their patients. Your facility can save time and money by turning to us for all the new and refurbished veterinary equipment you need.

DRE Veterinary has more than 30 years of experience in the veterinary equipment industry. Since we began in 1984, we have grown into an established and knowledgeable equipment provider that serves North America's top veterinary facilities and organizations.

DRE Veterinary will soon adopt the new name Avante Animal Health, a division of Avante Health Solutions. Avante is a growing global brand that will add a host of new products and services to our portfolio.

As part this exciting new phase, we recently finished construction on our new headquarters. The new space measures nearly 70,000 square feet and features an ultra-modern warehouse and state-of-the-art biomedical production and administrative office spaces. Our new headquarters provide enough space for future expansion as we continue to grow.

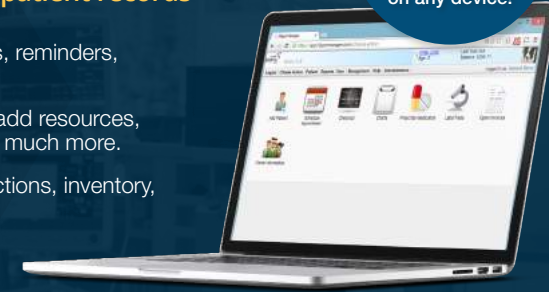

Hippo Manager

Veterinary Practice Management Software

Affordable, easy-to-use practice software helps veterinarians manage their offices and patient records

- Medical histories and charting for appointments, reminders, billing, user tasks and more.
- Appointment scheduler gives you the ability to add resources, export data for reminder calls or postcards and much more.
- Integrated point of sale system includes transactions, inventory, gift cards, discounts, email receipts and more.
- Learn more about Hippo Manager at [dreveterinary.com!](http://dreveterinary.com)

Hippo Manager is cloud based, so information can be accessed anywhere, anytime on any device!

VetNow

Cloud Based Virtual Care

Introducing telemedicine to veterinary facilities

Vaporizer Cleaning and Calibration Maintenance Services

Our skilled biomedical staff offers superior pricing and a quick turnaround.

We also have a wide selection of new and professionally refurbished vaporizers from Penlon, Ohmeda, and Dräger.

DRE Premier XP

Compact anesthesia system offers true mobility throughout your facility

0.1 – 4 lpm oxygen flowmeter with rotary float and large, easy to read scale.

1,500 mL CO₂ absorber designed for easy and fast replenishing of soda lime.

New momentary closed feature incorporated into the pop-off valve.

Recessed flush valve prevents accidental activation.

Quick-connect fresh gas outlet for easy and secure switching between breathing circuits.

Includes 5-year manufacturers warranty.

Web ID 9838

FIND IT FAST at www.dreveterinary.com when you search by Web ID number

DRE Premier XP MRI-Compatible Configuration

with Penlon Nuffield 200 Ventilator, Penlon Vaporizer and Circle System

Selectatec compatible manifold makes installing the vaporizer quick and easy.

Patient circuit with 2-liter and 3-liter bags.

Available with MRI-compatible vaporizer and Optional Deeper Canister Base.

Web ID 369

Elite/Coaxial

For small animals and rebreathing anesthesia

0.1 to 4 lpm oxygen flowmeter.

Quick-close, pop-off valve.

Coaxial breathing circuit reduces heat loss and helps humidify inspired gas.

Web ID 371

Bain Circuit Adaptor (non-rebreathing)

E-tank Holder (single and dual)

Scavenger Interface (active and passive)

Circuit Alarm

Top-Shelf Attachment

Anesthesia Options

DRE University Pro

Sophisticated anesthesia workstation adapts to the needs of your facility

0.1 to 4 lpm oxygen flowmeter, coaxial or conventional.

CO₂ absorber, dual vaporizer manifold with interlocking capability, recessed flush valve, rotary float, and dual canister for longer cases.

Optional N₂O, medical air flow meters, N₂O tank holder, bain circuit adaptor, ventilator bracket with shelf and mounted IV pole.

Web ID 12257

Ask about custom color options!

DRE Transport 5000 Plus

A portable unit, designed for space saving and small facilities

Compact for mobility with integrated safety functions.

O₂, flush valve, vaporizer and O₂ hose. Optional bain circuit adaptor available.

Web ID 12382

Optional carrying case available

Small Animal Anesthesia Accessories

Slide Top Induction Chambers

Close Top Induction Chamber

Rodent Nose Cone/Face Masks

Rodent Circuits

DRE Compact Mini

Small, easy-to-operate unit with an optional carrying case.

O₂ flow meter, new or refurbished vaporizer and O₂ hose.

Available with rodent nose cone and rodent circuit, or t-piece adaptor with shut off valve for 1 or 2 patients.

Web ID 9280

Non-rebreathing systems designed for laboratories and research facilities that anesthetize small animals

DRE Compact 150

Includes O₂ flow meter, O₂ flush valve, new or refurbished vaporizer and O₂ hose.

Available with rodent nose comb and a rolling stand.

Customizable with multiple flowmeters for anesthetizing multiple animals.

Web ID 373

DRE Titan XL

Large animal anesthesia system for equine, bovine and a variety of zoological animals

Frequency control variable from 0 to 99 breaths per minute in 1 BPM increments.

5 - 15 liters of tidal volume available.

Ventilator is time cycled, electronically controlled and pneumatically-powered.

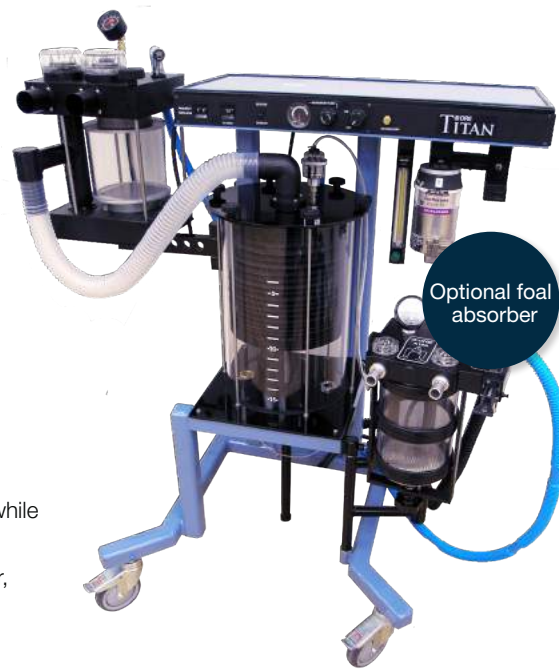

Inspiratory flow controlled through operator adjustable regulator.

Touch-control tidal volume adjustment.

Vapor exclusion system protects from both vaporizers delivering agent. One is in use, while the other shuts off.

Optional scavenger interface, Foal absorber, Extended inspiratory and expiratory ratios
Large animal sized endotracheal tubes available.

Web ID 534

Optional foal absorber

3-year warranty!

Datex-Ohmeda S/5 Aespire

Enhanced monitor integration capabilities with our Datex-Ohmeda Anesthesia Monitor and Compact Anesthesia monitor.

Lightweight and compact for easy maneuverability

Optional integrated auxiliary O₂ flowmeter and suction control

Advanced Breathing System (ABST™)

Web ID 11649

Certified Refurbished

Dräger Fabius GS

Combines advanced ventilation technology with reliable breathing system components

Proven ventilation versatility

Electric gas-flow measurement

Compact, convenient breathing system

Industry-standard anesthesia machine backed by manufacturer

Fully-loaded models come with volume control, pressure control and support

Web ID 11644

DRE Integra SL

Compact system for operating rooms where space is at a premium

Electronic flow display and conventional flowmeter options are available.

6 ventilation modes.

New top shelf with secure GCX mounting system for patient monitors.

Territory-specific electrical outlet options.

Selectatec compatible back bar (1 or 2 stations).

Illuminated work space with large capacity drawer units.

GCX compatible aluminium uprights for additional accessory mounting, Integrated CO₂ absorber and bellows unit with ventilator interface.

MRI-Compatible version available.

Web ID 12412

Includes the DRE AV-S Touchscreen Anesthesia Ventilator

< Patient monitor sold separately

Nuvo Lite Mark 5 Oxygen Concentrator

Efficient and easy to use

Liter Flow: 0.125 to 5 LPM

Oxygen Concentration: 90% (+6.5% / -3%) at 5 LPM

Onboard oxygen purity alarm.

Built on the reliable Nuvo Platform.

Lockable flow control valve.

Web ID 12779

Anesthesia Supplies & Accessories

Anesthesia Masks and Diaphragms

Individual and complete sets: small, medium and large (feline and canine), and rodent

CO₂ Absorbent

2.5-lb. pre-packaged canisters, bags, and 5-gallon buckets

O₂ Fuel Cells

Dräger, DRE, Ohmeda, Siemens, Datascope and Criticare

Circuits and Bags

Many styles and sizes

Shop dreveterinary.com for all your veterinary supply needs!

Vaporizers

New and recalibrated

Our selection includes Ohmeda Tec 4 & Tec 5, Penlon Sigma Delta, and Dräger 19.1 & Vapor 2000

Isoflurane and Sevoflurane

Shop dreveterinary.com for autoclave and sterilizer supplies!

DRE Hydrotherm SG

Operates easily, safely, and reliably

Screen display of parameters and conditions during processing.

Adjustable sterilization times.

Successive sterilization process option keeps the autoclave warm until it is opened, allowing for reduced warming time between sterilizations.

Equipped with a water quality check system.

Web ID 13180

Tuttnauer 3870EA

Large Capacity Automatic Autoclave

Closed-door active drying system to maintain sterility and efficiency.

Program parameters can be changed and stored.

Web ID 114

Tuttnauer EZ9

Automatic Autoclave

Closed door active drying system to maintain sterility and ensure efficient drying of packs and pouches.

High efficiency air pump.

Customizable, storable program parameters.

Web ID 420

DRE Stainless Steel Gurney with Anesthesia Machine

Combination of stainless steel gurney with optional DRE Premier XP Anesthesia machine

16-gauge stainless steel.

Two 5" locking casters.

Available in custom sizes with single or dual e-tank holders.

DRE Premier XP:

0.1 to 4 oxygen flowmeter with rotary float.

1500 ml CO₂ absorber designed for easy and fast replenishing of soda lime.

Web ID 10105

DRE Puma V6

Color touchscreen display and microcomputer controls

Pneumatically driven anesthesia ventilator for use with large and small animals.

Includes easily interchangeable large and small bellows.

O₂% airway gas monitoring.

Web ID 12720

Hallowell Ventilators

Available models:

Hallowell EMC 2002 Pro with and without Adjustable I:E Ratio

Pressure limited: Increases patient safety by limiting the maximum working pressure that can be adjusted to a pressure range of 10 to 60 cmH₂O.

Web ID 12706

Penlon Nuffield 200

MRI-compatible anesthesia ventilator

Simple controls: A wide range of settings enable a constant flow during the inspiratory phase and infinite variability of I:E settings.

Available with a circle system and/or Newton Valve for the ventilation of small patients.

Web ID 48

Centrifuges

DRE Universal Centrifuge

0 - 13,000 rpm and 8 interchangeable rotors available.

LED or mechanical timer.

Capacity: 24 capillary.

Web ID 120

DRE Microhematocrit Centrifuge

0 - 13,000 rpm, safety latch and an inner switch shut-off.

Safety power shutout lid.

Capacity: 24 slides.

Web ID 118

DRE Standard Centrifuge

Mechanical 60 minute timer.

Capacity is for eight 15 mL tube rotor placement operating at 0 - 45,000 rpm.

Web ID 119

Physio-Control Lifepak 20

Defibrillator/Monitor

CprMAX™ technology.

Easily converts to manual mode.

Paddle choices: Standard, pediatric, and/or sterilizable; internal and external.

Compact and lightweight for easy carrying and versatile use.

Highly intuitive for quick, effective AED use

Optional Pacing, AED, and SpO₂ capabilities.

Web ID 11385

Certified Refurbished

Handpiece is air and water-driven, and can be used for cutting and extracting teeth

DRE Teres V-400

High speed veterinary dental unit

All-in-one unit lets you easily switch from polishing to scaling to cutting.

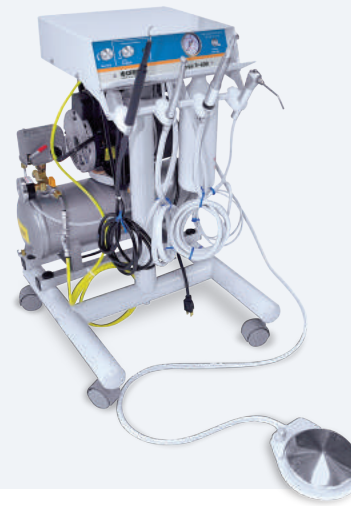

Surgical stainless steel, heat-treated tips glide smoothly across tooth surfaces.

Optional fiber optics system with high-speed handpiece.

Tips gently cool and lubricate teeth, and wash away dislodged debris.

Built-in 25K ultrasonic scaler maintains optimum frequency.

Web ID 1512

Philips Heartstart XL

Biphasic Defibrillator with ECG Monitoring

Combination manual device with automated external defibrillator capabilities.

ECG monitoring with pads or electrodes.

SMART Biphasic Technology.

Charges to highest energy level, 200 Joules, in less than 3 seconds.

Impedance Compensation - Measures chest impedance and delivers a low-energy shock based on patient's unique physical requirements.

Web ID 12103

Internal paddles available for most defibrillator options at dreveterinary.com

Zoll M Series

A Model for Every Application – One User Interface

Easy handling and optimal viewing while the built-in AC power and battery charger doesn't add size or weight.

Features consistent, straight forward controls and intuitive menus

Zoll proprietary Rectilinear Biphasic™ waveform with its lower energy and current and the 40-msec Rectilinear Pacing waveform provides superior efficacy while optimizing patient safety.

Offers superior capture at lower mean thresholds, reducing muscle artifact and ensuring more patient comfort and better patient tolerance.

Web ID 12248

HighDent Quattro Plus

A complete veterinary dental system

Suction with Foot Pedal Control.

Automatic Handpiece Selection.

110V Oil Compressor.

Air/Water Syringe with 360° Tip Rotation.

The Quattro Plus is also available as a wall mount.

Web ID 13204

Other HighDent dental unit models are available

Son-Mate II

Water line with quick disconnect attached.

From 200 RPM high torque micro-motor.

Web ID 9674

Scale-Aire Mini

Connects to an nitrogen tank easily with NO costly compressor required.

Surgical stainless steel, heat-treated tips glide smoothly across the tooth.

Web ID 9674

Ultrasonic Dental Scaler

Alternate from scaling to polishing at the touch of a switch.

Water line with filter and quick disconnect.

Perform curettage, deep scaling of heavy calculus and stain removal.

Transducer (stack) inserted in the handpiece.

Web ID 12578

DRE Citadel EZ

Ideal for light to moderate surgical procedures

High frequency, 120-watt electrocautery unit ideal for light to moderate surgical procedures.

Multi-functional ESU operates in the following modes: Pure Cut, Blend, Forced Coag, Soft Coag, and Bipolar.

Neutral electrode connection is constantly monitored for safe operation.

Control the monopolar handpiece output for complete attention to the surgical field.

Web ID 12597

DRE Citadel X3

A versatile, highly-adjustable electrocautery unit

Easily keep pace with any dynamic operating room environment.

Internet connectivity and data logging capabilities.

Web ID 12646

DRE Citadel EVS

Provides vessel sealing and bipolar electrocautery capabilities

Internet connectivity and data logging capabilities.

Easily keep pace with any dynamic operating room environment.

Web ID 12701

DRE Citadel 180

Easily-programmable electrocautery unit

180-watt power supply with innovative tissue feedback technology.

Patient return electrode monitoring and various cut and coagulation settings.

Web ID 12597

Valleylab Force FX

For bipolar and monopolar procedures

Power for cutting, desiccating, and fulgurating tissue.

Improved safety/dependability.

Web ID 790

Valleylab Ligasure

Vessel sealing system provides permanent vessel occlusion

Revolutionary technology replaces almost all other hemostatic tools — fuses vessel walls to create a permanent seal.

Isolated output configuration.

Web ID 9808

Optional carts available

DRE Citadel 300

Easily adapts to a variety of settings

Stable, 300-watt power supply over a wide range of tissue with innovative tissue feedback technology.

Navigate 30 cut and coag settings with the easily-programmable interface for quick setup.

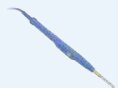

Safety-diagnostic protocols help to ensure all parts and accessories are functioning properly.

Spray coagulation function provides homogenous, efficient coagulation over a large area.

Web ID 12598

Foot Switch

ESU Pens

Bipolar Forceps

Grounding Plates and Cords

Electrodes

Electrosurgical Accessories

ValleyLab Force Triad

First-of-its kind integrated solution for open and laparoscopic electrocautery procedures

All-in-one unit is compatible with conventional electrocautery instruments and all current and new LigaSure instruments.

Combines 3 different tissue effects: monopolar, bipolar and vessel sealing.

Web ID 12559

Stryker Laparoscopy Tower

Customizable, all-in-one units for the visualization and documentation of laparoscopy procedures

Available with a mobile cart (like the one shown at left) and essential laparoscopy components.

Also gives you capacity for arthroscopy and other rigid endoscopy procedures.

Web ID 9904

Stryker 1488 HD

HD 3-chip camera with 9 surgical specialty settings designed to provide a clear, bright image.

Web ID 13273

Stryker L9000

400-watt LED bulbs delivers bright, crisp light and long life expectancy

Web ID 13272

Olympus EVIS EXERA III

Provides state of the art imaging quality and user-friendly features

Pre-freeze function automatically buffers a continuous, rapid series of procedural images and saves the sharpest renderings, saving time and frustration.

Advanced compression technology allows extended recording time.

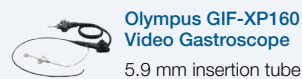

Web ID 12796

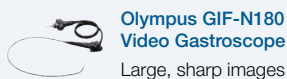

Olympus CLV-180

Olympus CV-180

Olympus GIF-XP160 Video Gastroscope
5.9 mm insertion tube

Olympus GIF-N180 Video Gastroscope
Large, sharp images

Ecotron Anyview Series C-Arm

Mobile imaging with the right features and price for the veterinary industry

9 or 12-inch High Resolution Image Intensifier.

Reduced dosage with pulse frequencies of 8, 15 or 30 Hz.

Produces up to 30 frames per second in any imaging mode.

Intelligent Dose Reduction automatically reduces dosage without sacrificing image quality.

Virtual collimator image guides can reduce unnecessary exposure.

Accu-scope Excelis HD Color Microscopy Camera

Web ID 12449

Accu-scope Excelis HDS Camera and Monitor System

Web ID 12938

DRE Waveline ECO

TFT color touchscreen provides a brighter screen, while using less power compared to LED screens.

Large storage function for NIBP measurement, alarm event, trend diagram/table review, etc.

Large font display to offer clear view of all vital signs.

High-resolution touchscreen monitor

Web ID 13211

Parameters: 3 or 5 lead ECG, Respiration, SPO₂, Temperature, Suntech NIBP

Optional: EtCO₂, Nellcor SPO₂, Suntech NIBP/IBP.

DRE Waveline Touch

Bright, easy to use, color touchscreen display with up to 8 adjustable waveforms.

Integrates with DRE Vetrec Telemetry systems.

Built-in battery and printer optional.

Multi-lead ECG monitoring with optional EtCO₂

Web ID 9460

Parameters: 3 or 5 lead ECG, Suntech NIBP, respiration, Nellcor or Masimo SpO₂, dual temperature and heart rate.

Optional: EtCO₂ (Sidestream or Mainstream), and Dual Invasive Blood Pressures.

Avante Verso

Multi-parameter monitor with adaptable user interface.

Easily adjust screen display, default settings, alarm limits, and manage up to 72 hours of detailed patient data.

Upgrade the Verso in the field for a variety of clinical applications.

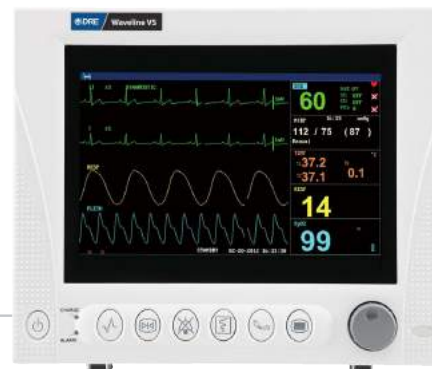

Versatile patient monitor with touchscreen and modular design

Web ID 13271

Parameters: NIBP, ECG with arrhythmia detection, Masimo SET SpO₂, TEMP, and RESP.

Optional: EtCO₂, Agent, IBP, Cardiac output.

DRE Waveline VS

10.1" Color TFT LCD Screen.

Suitable for feline, canine, and other animals.

Defibrillation and Electrosurgical Interference Protection.

Pitch Tone (Pulse-Tone Modulation).

Portable multi-parameter monitor

Web ID 12394

Parameters: 3 or 5 Lead ECG, SPO₂, Suntech Noninvasive Blood Pressure, Dual Temperature, and Respiration.

Optional: 2-IBP, Philips Respironics CO₂ (Mainstream and Sidestream), and Thermal Recorder.

DRE Waveline Pro

Large (15"), touchscreen with high-resolution flat panel display.

Color-coded alarms, patient data entry, battery backup, graphical and tabular trending.

Integrates with DRE Vetrec Telemetry Systems.

Touchscreen monitor available with EtCO₂, and 5-agent analysis

Web ID 2012

Parameters: 3 or 5 lead ECG with ST segment monitoring, Suntech NIBP, Nellcor or Masimo SpO₂, Dual Temperature, and Respiration rate.

Optional: Sidestream or mainstream EtCO₂, Dual Invasive Blood Pressures, built in Drager Anesthesia Gas Module (5-agents, Auto ID, FIO₂, N₂O and EtCO₂) and optional built-in thermal printer.

DRE Waveline EZ

Graphical and tabular trending.

Advanced ST and arrhythmia detection.

Integrates with DRE Vetrec Telemetry Systems.

Simultaneous multi-lead ECG monitoring.

Portable touchscreen monitor

Web ID 9765

Parameters: 3 or 5 lead ECG, Suntech NIBP, respiration, Nellcor or Masimo SpO₂, dual temperature and battery backup.

Optional: EtCO₂ and Dual Invasive Blood Pressures.

DRE Echo CO₂

5.7" high resolution display for easy reading.
Flexible configurations to meet different clinical needs.
Lightweight, portable design and user-friendly interface for easy operation.
Real-time parameters measurement display with trend table for easy reviewing.
Built-in rechargeable Lithium-ion battery for 10 hours continuous working.

Provides cost-effective SPO₂ and CO₂ monitoring with accuracy and durability

Web ID 10606

Masimo Radical 57

Versatile, handheld oximeter with a rugged, lightweight design

Helps reduce the risk of misdiagnosing unsuspected carbon monoxide poisoning.
Accurate SpO₂ and pulse rate measurements during the most difficult clinical conditions.
Assists clinicians in detecting potentially life-threatening acquired Methemoglobinemia.

Web ID 9842

GE CARESCAPE B850

High-performance monitor

For use in the operating room or intensive care environments.
Displays 8 to 14 waveforms.
Integrated USB port.

"The DRE Vetrec makes cardiac monitoring easy and cost efficient by monitoring multiple patients at once without using multiple cage side units. The portable transmitters allow patients to move about freely."

Leslie Wereszczak, LVMT, VTS
Small Animal ICU Supervisor, University of Tennessee College of Veterinary Medicine

Monitor multiple patients from a single location with the DRE Vetrec NXT

Fully-configured telemetry system designed for emergency and critical care/ICU settings.

Seamless integration with wireless ECG transmitters and DRE Waveline multi-parameter monitors.

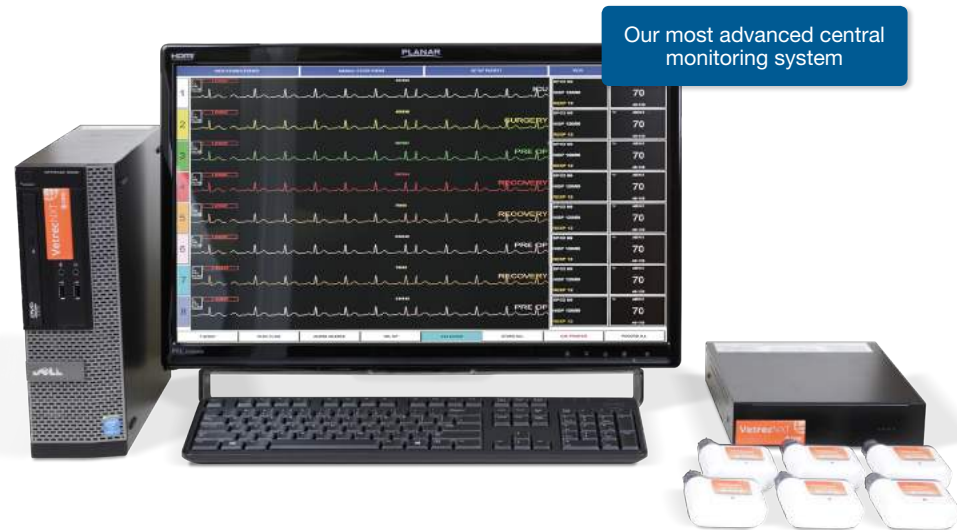

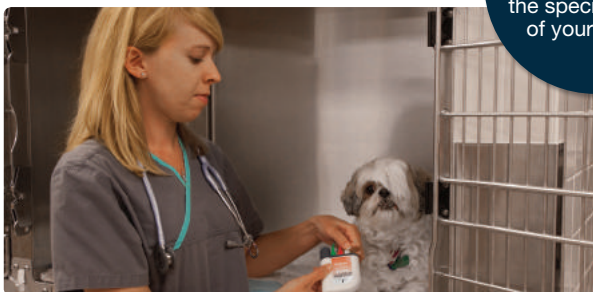

Provides auto charting; full disclosure (96 hours); auto-generation of alarm events; manual recording (ECG analysis); trends, charts and strips for arrhythmia; ECG data detection; and color waveforms.

Automatically compiles and archives user-selectable discharge reports.

With a networked system, you can e-mail discharge reports in PDF format.

Web ID 12967

Features flexible software that can be customized to the specific needs of your facility.

Our most advanced central monitoring system

Keep watch of up to 16 patients at once using waterproof ECG transmitters and DRE multi-parameter monitors!

Connect NXT transmitters directly to patients for ECG monitoring, or utilize DRE-brand patient monitors to view multiple parameters from the central station.

See pages 17-18 for more monitor options!

ECG Transmitters

Waveline EZ

Waveline Touch

Waveline Pro

ECG Transmitters **Small, portable and lightweight**

Single, multi-lead

Frequency: Medical 608 MHZ

Independent lead wires

Waterproof

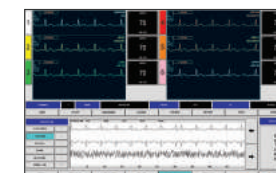

Operates on 2 AAA battery

Flexible and durable

Easy-to-use graphical interface

The Vetrec NXT features split screen technology that allows you to review, edit and enter patient information while observing all patients in the system.

DRE Maxx Luxx LED 160

Exceptional 160,000 lux and a rich, adjustable color temperature

Built to last at a rated 50,000 hours.

160,000 lux output (14,800 foot candles).

Adjustable focusing and CRI.

Adjustable color temperature for optimizing tissue colors.

Web ID 12563

Configurations

Single ceiling mount

Dual ceiling mount

DRE Maxx Luxx LED

Maximum brightness with extremely cool output for 50,000 hours

Superb color temperature of 4,300° Kelvin.

Wide range mechanical 5-stage dimming.

130,000 lux output at 1 meter.

6.5" – 9" adjustable pattern.

DRE SLS 2500 LED

Dimming knob located on the side of the light head for quick and easy adjustments.

Color temperature close to natural sunlight with 3,500 K ~ 5,000 K.

Light and strong nova alloy arm allows easy and convenient positioning.

60,000 lux output at 1 meter.

Web ID 12379

DRE Vista Flex LED

Cost-saving, energy-efficient LED bulb produces up to 50,000 hours of illumination.

Provides a color temperature of 5,300 K.

Light produces 70,000 Lux at an 8" working distance.

Control panel features intuitive controls and 2 handles for easy maneuverability.

Web ID 12755

Available in a variety of mounting options

DRE SLS 9000 LED

Shadowless light with 90,000 lux output

50,000-hour rated LED life.

Color temperature of 3,500°- 5,000° Kelvin.

Web ID 12349

DRE Xavier X

With a bright, shadow-free light, the DRE Xavier X guarantees accuracy

LED light source produces less heat than traditional halogen headlights.

Color temperature of 5000K for bright, shadow-free light.

Headlight can be used while charging.

Lightweight and comfortable for all surgical applications.

Adjustable spot size and brightness control allows for viewing tissue characteristics without distortion.

Smart design is convenient for mobile diagnosis.

Web ID 13174

Surgical Headlight

DRE Avanti NXT3

Comprehensive infusion care for any medical facility

Avanti NXT3 Infusion Pump features varying modes of operation: Vol/rate mode, Time mode, Body weight mode, Optional: Drop rate mode

Unique design allows for a more streamlined appearance and workflow.

Anti-bolus technology for increased safety after sudden occlusion release.

Web ID 13185

Baxter SIGMA Spectrum

EMR Integration and Quick-Search MDL Access

Light-weight and compact pump with bright color screen and lithium-ion battery pack

Safety features include: titration error prevention, check flow information alerts, automatic MDL updates

Standard IV administration set compatible

Web ID 12839

Certified Refurbished

A step up from Flo-Gard series models

DripAssist Gravity IV

Simplifies IV fluid administration

A monitor and alarm for gravity IV fluid applications.

Precision measurement and monitoring without the complexity of expensive infusion pumps.

Web ID 12445

Syringe Pump

Medfusion 3500

Programmable dose limits.

Rapid occlusion detection.

Connectivity with Patient Data Management Systems.

Up to 10 hours internal battery capacity.

DRE Veterinary will soon be Avante Animal Health

We are excited to announce that moving into 2019, **Avante Animal Health** will officially be adopted as the name for DRE Veterinary. We will become the Animal Health division of **Avante Health Solutions**, a growing global brand that adds a host of exciting new products and services to our portfolio. At a time when budgets are pinched and quality is critical, we are working to provide you with a better alternative to acquiring and maintaining your veterinary equipment. Our new role within Avante allows us to strengthen our buying power, leverage partner relationships, and expand our technical teams. This transition will greatly benefit our customers and allow DRE to strengthen the value that One Source can provide.

Thank you for trusting us with your business, we very much look forward to building on that foundation in the years to come!
