*Survivors*

Unison Arts is proud to present a retrospective exhibition of paintings & works in ceramics by artist, storyteller, scientist, & Holocaust Survivor, Tibor Spitz.

The paintings & ceramics on view work together to tell the story of a people and a family witnessing their suffering, memories turned to works of art that offer a redemptive account of survival, grace, and light in darkness.

*"These works refer back to all the lives I've lived, the experience of shared trauma, of ritual, of practiced study of painting and song, and the revelatory, healing language of art shared as reflections of all our tragic, heroic and loving experiences in all our diverse communities."*

– Tibor Spitz
