

Nukes and UFOs Cover-up Silencing People and the Truth

UFOs of extraterrestrial origin have visited nuclear missile facilities in the U.S. and other countries. This summary of witness testimony on UFO facts is from the book *Disclosure*, by Steven M. Greer, MD, available at Disclosureproject.org. Page numbers from the book, for most excerpts, are given at the end of each statement.

This national security issue was the subject of a press conference held at the National Press Club on Sept. 27, 2010 and covered live on CNN.

"We were getting reports of visits by UFOs over the storage facilities and even some of the manufacturing facilities. That went on continuously. Security people were reluctant to

report because of the protocol and the bureaucracy involved in reporting them. They just avoided reporting....I learned about incidents involving nuclear weapons. Among these incidents were those where a couple of nuclear weapons that were sent into space were destroyed by the extraterrestrials.

There was one incident when we exploded a nuclear weapon over the Pacific in '61, I believe. This was one that the extraterrestrials were really concerned about because it affected our ionosphere. In either the very end of the '70s or the early '80s, we attempted to put a nuclear weapon on the moon and explode it for scientific measurements. [This] was not acceptable to the extraterrestrials. They destroyed the weapon as it went toward the moon.

The idea of any explosion of a nuclear weapon in space by any Earth government was not acceptable to the extraterrestrials. That has been demonstrated over and over." - US Air Force, Atomic Energy Commission, **Colonel Ross Dedrickson**, *Disclosure* p. 191-193.

"The security guard called and said, 'Sir, there's a glowing red object hovering right outside the front gate. I've got all the men out here with their weapons drawn.

We lost between 16 to 18 ICBMs [nuclear-tipped InterContinental Ballistic Missiles] at the same time UFOs were in the area and were observed by airmen....[A high-ranking Air Force Officer] said, 'Stop the investigation; do no more on this and do not write a final report.' I heard that many of the guards that reported this incident were sent off to Viet Nam." - US Air Force, FAA, **Captain Robert Salas**, p. 168-171. See book *Faded Giant*

Visitations by extraterrestrial beings or their craft to Earth have been confirmed by hundreds of government whistle-blowers in thousands of pages of testimony, and by declassified U.S. Government documents. The following link alone has a good sampling of testimony about what was known by Reagan, Kissinger, Bush Sr., Gorbachev, the CIA, NASA, NSA, NRO, Area 51, and more.

"So this thing [UFO] fires a beam of light at the warhead, hits it and then it moves to the other side and fires another beam of light. And the warhead tumbles out of space.

What message would I interpret from that? [The UFOs were telling us] don't mess with nuclear warheads....Major Mannsman said, 'You are never to speak of this again.' After an article [about the incident years later], I would get phone calls all night long. People would call and start screaming at me. One night somebody blew up my mailbox." - US Air Force, **Professor Robert Jacobs**, pp. 184, 187.

"It is time for the truth to be brought out in open Congressional hearings. Behind the scenes, high-ranking Air Force officers are soberly concerned about UFOs.

But through official secrecy and ridicule, citizens are led to believe the unknown flying objects are nonsense. To hide the facts, the Air Force has silenced its personnel."

p. 58, quoted from New York Times, February 28, 1960, p. L30. Director of CIA, **Admiral R.H.**

"Eisenhower wanted somebody to be in charge. The CIA was working primarily for itself....So, it was organized, but the name of the NRO was kept secret for years.

...The National Security Agency—the killers work in that. Secretary of Defense Forrestal was the first powerful person that was eliminated because he was going to release information [on UFOs]—and nobody has ever paid for that crime...

Who was stationed at Roswell? The only nuclear bomb squadron in the world. We focused several powerful radars on the UFOs, and it caused two of them to crash. One of them had two aliens on it. One of them was wounded or hurt, the other was alive then, but before we could get him anywhere, he had passed on...

I would interview people who claimed they had seen something, and try to convince them they hadn't, or that they were hallucinating. If that didn't work, another team would give all the threats—threaten them and their family. They would be in charge of discrediting them, making them look foolish. Now, if that didn't work, there was another team that put an end to that problem, one way or another..."

UFOs and Aviation FAA and Air Force Cover-ups

"This particular incident started with a phone call from the people in Alaska....I said, 'What's the problem?' He said, 'Well, it's that UFO. The UFO was bouncing

around the 747. [It] was a huge ball with lights running around it....' They brought in three people from the FBI, three people from the CIA, and three people from Reagan's scientific study team.

Well, I've been involved in a lot of cover-ups with the FAA. When we gave the presentation to the Reagan staff, they had all those people swear that this never happened. But they never had me swear it never happened. I can tell you what I've seen with my own eyes. I've got a videotape. I've got the voice tape. I've got the reports that were filed that will confirm what I've been telling you." p. 80 - 85. - **FAA Chief of Accidents and Investigations, John Callahan**

"This 'flying saucer' situation is not at all imaginary or seeing too much in some natural phenomena. Something is really flying around. The phenomenon is something real and not visionary or fictitious." - **General Nathan Twining, Chief of Staff, US Air Force (1953-57) Chairman of the Joint Chiefs of Staff (1957-60)**

"When you have the view of the airspace and the radar screen [and] you see the UFOs go around twenty or thirty miles a second—that is very real. They can turn suddenly almost

90 degrees in a second or half a second. The UFOs can go vertically straight up very quickly." p. 129. **Mexico City Senior Air Traffic Controller, Enrique Kolbeck**

Who is the Real Enemy?

U.S. Air Force Academy cadets are taught about possible "alien-controlled UFOs". And hundreds of military pilots have died in accidents while chasing UFOs. But government officials will not publicly discuss this and have threatened and even killed Americans to keep extraterrestrial UFOs a secret. Who is the real enemy?

"Flying saucers are real. Too many good men have seen them, that don't have hallucinations."

- **Captain Eddie Rickenbacker**, "American Ace of Aces," medal of honor-winning commander of the 94th Aero Pursuit Squadron in WWI.

"One afternoon when we were just about ready to finish up training, Colonel Holomon brought out a piece of what appeared to be metallic debris. He went on to explain that this was material that had come from a New Mexico crash in 1947 of an extraterrestrial craft, and that was discussed at length....

I got an opportunity to travel with the President [Eisenhower]. He was very, very interested in the shapes and sizes of the UFOs and what made them go....But what happened was that Eisenhower got sold out. He realized that he was losing control of the UFO subject. He realized that the phenomenon was not going to be in the best hands. That was a real concern....

It had been discussed with me on numerous occasions what could happen to me militarily if I discussed this. Threats have been made and carried out. This [UFOs] being the biggest security situation that this country has ever dealt with, there have been some erasures....He said, "You will be erased—disappear." Those threats have been made and carried out. Those threats started way back in 1947. They will go after not only you, they will go after your family." pp. 33, 230-237. **US Army, Sergeant Stephen Lovekin** (Brigadier General in North Carolina State Guard)

Government Lies to Protect Military Industry Profits

"When Wernher Von Braun [father of modern rocket science] was dying of cancer [1974], he asked me to be his spokesperson. Von Braun actually told me that the reasons for space-

based weaponry that were going to be given—the enemies that we were going to identify—were all based on a lie.

He said the strategy that was being used to educate the public and decision-makers was to use scare tactics; that first the Russians are going to be considered the enemy. Then terrorists would be identified. Then we were going to identify third-world 'crazies.' We now call them Nations of Concern. The next enemy was asteroids—against asteroids we are going to build space-based weapons. And over and over during the four years that I knew him and was giving speeches for him, he would bring up the last card:

'And remember, Carol, the last card is the alien card. We are going to have to build space-based weapons against aliens, and all of it is a lie.'

'And remember, Carol, the last card is the alien card. We are going to have to build space-based weapons against aliens, and all of it is a lie.'

- **Dr. Wernher von Braun**

"He was too afraid to talk about it. He would not tell me the details. I am not sure I would have absorbed them if he had told me the details, or even believed him in 1974....

In 1977, I was at a meeting in Fairchild Industries in a conference room called the War Room....They continued the conversation about how they were going to antagonize these enemies and at some point, there was going to be a war in the Gulf, a Gulf War. Now this is 1977!
