

Elvis Presley had more UFO sightings and meetings with ETs than any other celebrity.

Muhammad Ali saw at least 22 UFOs and was fascinated by them.

Michael Jackson saw a UFO and wanted to welcome ETs to Earth and film the landing.

"Yes, there have been ET visitations. There have been crashed craft. There have been material and bodies recovered."

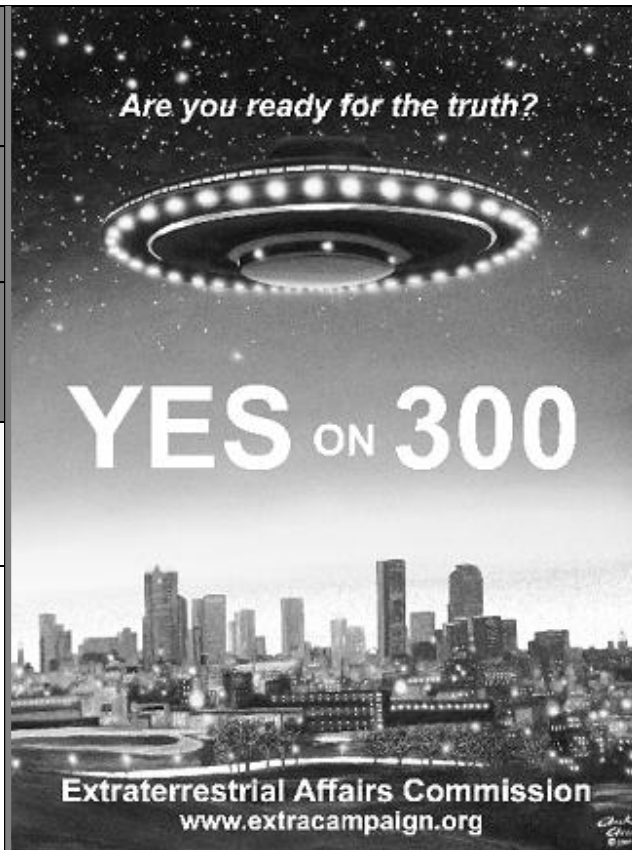

- Apollo 14 Astronaut, Edgar Mitchell, Ph.D.

Summary of ETA Commission Duties

Over 10,000 people signed the petition to put the Extraterrestrial Affairs Commission on the Denver ballot. If voted into law, the commission will be **funded only by "grants, gifts, and donations", not the city budget**, as confirmed by the Denver Budget and Management Director. **The commission will:**

- display on the City of Denver web site, evidence and witness testimony regarding extraterrestrial visitors on Earth
- evaluate potential risks and benefits of interacting with extraterrestrial visitors
- establish procedures for residents to report sightings of extraterrestrial visitors or their vehicles to appropriate agencies

It is time to start an open and honest discussion. It is time to ask who these ET visitors are, why they are here, and what are the risks and benefits of interacting with them. It is time to grow up and accept that we are part of a galactic community!

EXTRA! Many UFOs Are Real!

UFOs, not from Earth, have been seen by U.S. Presidents, astronauts and other NASA employees, high ranking military officers, public safety personnel, government contractors, celebrities, and millions of citizens. Thousands of U.S. Government documents confirm the government cover-up! Other countries have already been releasing some of their UFO files, but not the U.S.

Many of the most important national policies started at the local level. The long, hard, and dangerous fight to get voting rights for women and people of color are good examples. As James Madison said, *"The People are the only legitimate fountain of power..."* That is why an Extraterrestrial Affairs Commission needs to be created first by the People. **Why not in Denver?**

Jimmy Carter saw a UFO and promised to disclose government UFO files if elected President.

Hillary Clinton helped draft a comprehensive disclosure policy on UFOs and ETs.

Ronald Reagan followed a UFO by plane but did not report it for fear of ridicule.

"...there were some captured craft from 1947 in Roswell... we really did get some technology from them... that can cure cancer."

- Don Phillips, USAF, Engineer

Five Reasons to Vote YES on 300

1. **Common Sense** - Over 400 government, military, and intelligence community witnesses have testified to their direct, personal, first-hand experience with UFOs, ETs, ET technology, and the cover-up that keeps this information secret. [Source: DisclosureProject.org]
2. **"We ought to do it [disclose UFO files] because it's right...because it's the law."**
- John Podesta, Clinton and Obama official
3. All people have a **right to know** about suppressed extraterrestrial technologies for: curing life-threatening diseases, cleaner energy, environmental cleanup, and creating jobs.
4. **No Cost** - like 80 other Denver Boards and Commissions, the ETA Commission requires NO city budget funding.
5. **No Risk** - Denver's City Council can repeal the ETA Commission ordinance after six months.

Disclosing truth about UFOs and life-saving and planet-saving technologies needs to start somewhere. After more than 60 years of denial and lies, there is still no sign that the U.S. Government will disclose this truth. So "We the People" are starting in Denver!

Public Safety, UFOs, and Extraterrestrial Contact

The highest priority for any city government is public safety. Thousands of people have claimed some kind of ET contact with benevolent ETs, or abduction by malevolent ETs. Many allege that the abduction was actually done by U.S. military personnel (MILABS) faking an alien abduction and abusing them. These reports must be treated seriously as public safety issues.

A Denver Police Department Crime Analyst has suggested that Denver Police Officers attend continuing education courses on UFOs and ETs.

The **FIRE OFFICER'S GUIDE TO DISASTER CONTROL** states, *"In addition, if the apparent visits by alien beings and their space vehicles should pose any type of threat, it will, as always, be the fire service that is called upon to provide the first line of life-saving defense and disaster mitigation."*

The Extraterrestrial Affairs Commission will help assess the risk and benefits of contact with ETs and develop procedures for citizens to report related incidents to the appropriate agencies.

Key Endorsements

"I support Initiative 300 to create an Extraterrestrial Affairs Commission and I encourage people to vote yes."

- Veronica Barela, CEO and Executive Director of NEWSED, a major community development organization.

Latinos account for about 30% of the Denver population over age 18 who are eligible to vote. The Denver Post has referred to Veronica Barela as **"Denver's West Side power broker"**.

NEWSED is also the organizer of Denver's Cinco de Mayo celebration which draws around 300,000 annually to Civic Center Park in Denver.

"From a fully conscious place deep in my heart I support Initiative 300 to create an Extraterrestrial Affairs Commission and to create this as a public acknowledgement

that they [ETs] do exist." - Michael Newell, Former Denver Police Officer

Michael Newell had friendly encounters with five extraterrestrial races during a 24-hour period which included September 11, 2001.

Newell is a former Army C.I.D. (Criminal Investigation Division) Agent, Viet Nam Veteran, police officer, and advisor to international clientele on management of counter-terrorism, stalking, and conflict management. He has helped change "stalker" laws and saved lives.

Michael Newell has been featured on CBS News "48 Hours" and was referred to as **"The Real-Life Equalizer"**. He was also honored as an **"Everyday Hero"** by ABC TV affiliate Channel 7 - The Denver Channel.

Former New York Police Officer Frank Soriano has had similar experiences. Along with Mutual UFO Network Researcher Jim Bouck, Frank has recently co-authored the book:

"UFOs - Witnessed and Reported by Law Enforcement Officers".

Initiative 300 Ballot Title

On the November 2010 Denver Ballot

"Shall the voters for the City and County of Denver adopt an Initiated Ordinance to require the creation of an extraterrestrial affairs commission to help ensure the health, safety, and cultural awareness of Denver residents and visitors in relation to potential encounters or interactions with extraterrestrial intelligent beings or their vehicles, and fund such commission from grants, gifts and donations?" Yes___ No___
