

God's character

Below are a list of the character qualities of God. The list is not exhaustive. I have found that it can be helpful to focus on a particular characteristic that has been a highlight to you in the season of life you are in.

for example to remind yourself that God is patient with us is comforting, especially when it has been a season of feeling like you are making the same mistakes over and over.

Read the list and choose one to reflect on and praise God for and to remind yourself of who He is.
