Summer - #1

Message from Coach Hannah

Summer is here and we seem to be having some lovely weather! I am hoping it continues into the summer holidays! This term will be packed with fun! The Children in our Tormead after school clubs will be getting more outdoor play in this lovely weather (so please pack sun cream in bags for them to top up with) and will get to make a short film with the guidance of professional actress and mindul champion Jasmine Armfield if you book on to her Thursday sessions. We recommend booking the whole term to get the most out of these sessions and have more input in the final project.

We are also very excited for May Half Term Camp. We will be doing lots of sports, adventure, arts & Crafts, science, programming & gardening! If any parents are trying to get rid of surplus soil please do let us know! If you missed the early bird discount be sure to keep your eyes peeled for our summer one instead!

Jasmine Armfield is back at Seren Kids!

We are delighted to announce that Jasmine is back to do Drama workshops in the Summer term for our After school Club at Tormead. We encourage parents to book as soon as possible, as we are now two sessions in. We recommend booking on for next week (and rest of term) if you wish for your child to have a lot of input on the term long project of script writing, character development, and producing a short film for parents to watch at the end of term. Last Terms film was very cool, and this term will be even better as the girls will get more project time than last term! Around 5-6 spaces left!

Did You know?

Coach Ellie has met members of the Jackson 5! How cool is that?!

Upcoming Events

- ☀️ Tormead After School Clubs Summer term now open
- ☀️ May Half Term & Summer Camp bookings now open!
- ☀️ Summer Schedule and Menus to be released soon!

Community Spotlight - We are hiring!

We're looking for the next addition to our fabulous team!

As Seren Kids grows, we are expanding our venues to ensure our camps remain small, intimate, and personalized. We are deeply passionate about the community feel we've fostered—a place where every child and family is known by name.

Our parents often tell us they choose us because they find larger camps overwhelming; we've listened to that feedback and are committed to keeping our spaces relaxed and family-oriented.

Are you our next Camp Manager? If you (or someone you know) are interested in leading a team that puts connection first, please click the link above!

Gardening at Seren Kids

Why We Love Gardening at Seren Kids

While it may not be our main event, we love incorporating gardening into our camp days. It fits perfectly with our goal of providing a relaxed, family feel where children can engage with nature at their own pace.

Hands-on Science: Gardening provides a living laboratory! While we're digging, we teach the science of plants—from how roots absorb water to the magic of photosynthesis and the vital role pollinators play in our ecosystem. It makes biology feel like an adventure.

Sensory Connection: There is something incredibly grounding about working with the earth. It offers a gentle sensory experience that helps children decompress and enjoy a moment of "quiet" away from high-energy activities.

Sensory Connection: There is something incredibly grounding about working with the earth. It offers a gentle sensory experience that helps children decompress and enjoy a moment of "quiet" away from high-energy activities.

A Lesson in Patience: Gardening is a beautiful way to show children that good things take time. Tending to a small patch or a pot teaches them to appreciate the slow, natural process of growth.

Healthy Connections: It sparks wonderful conversations about where our food comes from. Connecting the science of growth to the food on their plates helps foster a lifelong appreciation for nature.

Building Confidence: There is a huge sense of pride when a child sees a sprout they've helped care for. It builds a sense of achievement and a real connection to the camp environment.

At Seren Kids, we believe in providing varied spaces—from high-energy play to discovering the science of the natural world—so every child feels right at home.
