

**@ADITYA INDUSTRIES, INC. STAINLESS STEEL SINK LIMITED LIFETIME
WARRANTY**

All stainless steel sinks sold by ADITYA INDUSTRIES, INC., are warranted for the lifetime of the original purchaser, as long as he/she owns the home it was originally installed in. This includes rusting, warpage, staining, burning, cracking, discoloration, and any other defect due to workmanship or material failure.

This warranty DOES NOT include damage due to installation or usage abuse.

For more information or questions, call ADITYA INDUSTRIES, INC. at 1-614-541-9155.

Thank you for choosing ADITYA INDUSTRIES, INC. stainless steel brand.

ADITYA INDUSTRIES, INC.

Cleaning Do's & Don'ts

--- DO ---

1. Rinse your sink after each use. Thorough rinsing can be done by running the water for a few minutes and rubbing the cleaned area with a sponge.
2. Towel dry after each use to prevent mineral deposits from building up on the surface of the sink.
3. Run cold water when pouring boiling water into sinks to minimize temperature shock.

--- DON'T ---

1. Do not expose your sink to strong chemicals, such as paint removers, oven cleaners, etc. If contact occurs, quickly flush the surface with water.
2. Do not use coarse abrasive powders.
3. Do not use metallic scourers or brushes with metal bristles.
4. Do not allow liquid soap or other household cleansers to dry on the surface of the sink. Most brands contain chemical additives, which may affect the finish.
5. Do not allow food, beverage residue, or metal canned products to remain on sink surface.
6. Do not leave wet sponges, cloths, or cleaning pads on the sink. This can lead to surface rust.
