To the Bowie Arts Committee,

Sarah Ramson has asked me to write a letter of recommendation based on her participation with the Washington Jazz Arts Institute over the past four years. I have found Sarah to be quite talented, intelligent, trustworthy as well as energetic in carrying out her performances. She is an asset to any performance project.

I anticipate that success will continue to be a great part of this young lady's future and render my full recommendation for any opportunity that may enhance her further educational and artistic goals.

Sincerely,

Davey S. Yarborough
