Sandy Hinden is a very exceptional human being, entirely devoted to a better, ideal world. I have known him for more than 30 years. He constantly inspired me for my work and efforts at the United Nations. He had ceaseless great ideas. He encouraged me to not give up. I would be so happy to see him in charge of a major newspaper section on good news and happiness for the people. He would be very precious for a major philanthropic organization, especially one dealing internationally. I would support his candidacy with the highest terms.

Dr. Robert Muller (1923-2010)

Former UN Assistant Secretary General

Cofounder, UN University for Peace, Costa Rica

Sanford Hinden is one of the most humane, compassionate, loving human beings I have ever met. He speaks and acts from deep wisdom about what people need – and what the world needs now. I trust him and have learned immensely from him.

Sandy is an inspirational actionist! He is not afraid to ask the tough questions and explore heartfelt responses to them. The ones that have to do with how we got into this mess as humanity, and what it's going to take for us to get out of it. His wealth of experience and human kindness, combined with political savvy and collaborative working style, make learning with and from him an enriching experience, and always a joy.
