TRANSNATIONAL PROBLEMS PREVENTING WORLD PROGRESS

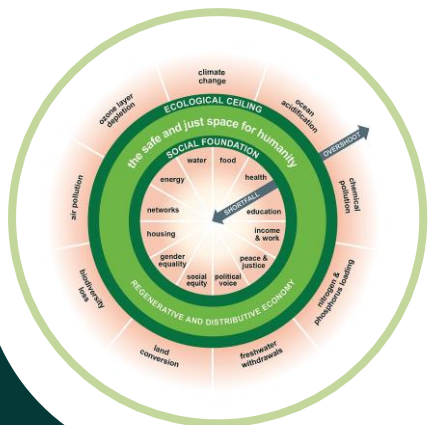

TRANSNATIONAL PROBLEMS PREVENTING WORLD PROGRESS

International discussion on the images below is needed.

Issues need to be resolved regionally and globally, yet the United Nations has been made ineffective due to the veto power of the UN Security Council.

No matter how much progress is made with Doughnut Economics & Wellbeing Economy Alliance it is nullified by transnational problems.

Unless humans think wisely and behave collaboratively progress cannot be made, and the world is facing military and biospheric destruction.

HUMAN NATURE PREVENTING WORLD PROGRESS

- 1. All advanced planetary civilizations in the universe must go through a process of evolution beyond self-centered arrogance, hubris, and brutal power, to a civilization that supports the life system of the planet, and the wellbeing of its inhabitants.**
- 2. If they do not go through the transformation, they may:**
 - blow themselves up
 - destroy their ecosystem
 - be wiped out by a competing artificial intelligence
 - create an authoritarian repressive civilization
- 3. Today, we are an endangered planet, one that is close to the collapse of our global ecosystem or a nuclear catastrophe, either in minutes or within 50 years, destroying all life on Earth.**

HUMAN NATURE PREVENTING WORLD PROGRESS

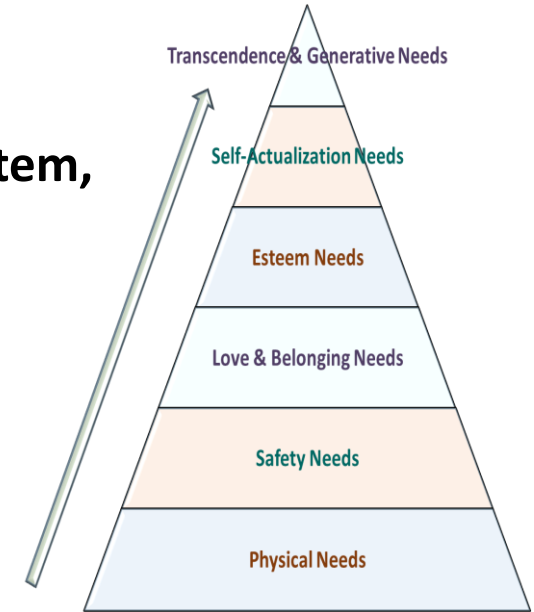

- 6. We need to clarify how planet Earth can rapidly evolve past the present destructive situation to a more evolved conscious civilization.**
- 7. We need to use our imagination to clarify how we can achieve evolutionary transcendence from a malevolent civilization to a benevolent civilization.**
- 8. Humans need to rapidly expand their consciousness, values, character, and ethics.**

EVOLVING VALUES FOR WORLD PROGRESS

- Humans develop values through socialization from parents, religious institutions, friends, personal experiences, media and society.
- The person's values are affected by their belief system, prevailing social systems, and to some extent socio-economic conditions.
- Values often come from many different needs. That is why people behave so differently trying to meet different needs.
- Some with money and power do nothing to help others and the world.
- We need to help them evolve their values to care about others and Earth.

Human Needs Hierarchy

What we value and seek may come from our needs

Transcendence & Generative Needs

Oneness with Creation-Universe, Sun, Earth, Ancestors, Future Generations, Care for Earth & the Whole

Self-Actualization Needs

Purposeful effort to develop and use one's talents and potentials

Education, Freedom, Meaning, Purpose, Direction, Creativity, Intellectual & Aesthetic Fulfillment

Esteem Needs

Self-respect, self-esteem, self-appreciation, respect from others

Love & Belonging Needs

Friendship, intimacy, family, a sense of connection, compassion, community, happiness, wellbeing

Safety Needs

Personal security, employment, resources, health, peace

Physical Needs

Air, water, food, shelter, sleep, clothing, pleasure, reproduction

What We Value Depends on What We Identify With Expanding Identification, Empathy, Compassion, Concern, Care
